Pemakluman

Kepengerusian ASEAN-Malaysia 2025: Jabatan Perangkaan Malaysia (DOSM) akan mempengerusikan Jawatankuasa Sistem Statistik Komuniti ASEAN Ke-15 (ACSS15) yang bertujuan untuk memperkuuh kerjasama statistik ke arah pembangunan serantau yang mampan.

Malaysia buat julung kalinya telah menduduki tangga pertama (1) di peringkat global dalam laporan dwi-tahunan Open Data Inventory (ODIN) 2024/25 yang dikeluarkan oleh Open Data Watch (ODW), mengatasi 197 negara lain. Pencapaian ini merupakan lonjakan ketara daripada kedudukan ke-67 dalam penilaian ODIN 2022/23.

Kerajaan Malaysia telah mengisyiharkan 20 Oktober sebagai Hari Statistik Negara (MyStats Day), dengan tema 'Statistik Nadi Kehidupan'. Sementara itu, Hari Statistik Dunia Keempat akan disambut pada 20 Oktober 2025 dengan tema 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen adalah medium yang menyediakan katalog data dan visualisasi bagi memudahkan pengguna menganalisis pelbagai data dan boleh diakses melalui portal <https://open.dosm.gov.my>.

Announcement

ASEAN-Malaysia 2025 Chairmanship: The Department of Statistics Malaysia (DOSM) will chair the 15th ASEAN Community Statistical System Committee (ACSS15) which aims to strengthen the statistical cooperation towards sustainable regional development.

Malaysia, for the first time, ranked as number one (1) globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67th position in the ODIN 2022/23 assessment.

The Government of Malaysia has declared October 20th as National Statistics Day (MyStats Day), with the theme 'Statistics is the Essence of Life.' Meanwhile, the Fourth World Statistics Day will be celebrated on 20th October 2025, with the theme 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

PREFACE

Statistics on Foreign Affiliates in Malaysia for the year 2023 is compiled annually and provides information on the number of affiliates, value added, gross fixed capital formation (GFCF), number of employees, compensation of employees, exports and imports by kind of economic activities. The annual time series statistics from 2014 to 2023 at detailed level are also included in this publication.

The compilation of foreign affiliates in Malaysia statistics is based on the guidelines recommended in the Manual on Statistics of International Trade in Services (MSITS) 2010, United Nations and Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6) of International Monetary Fund (IMF). This statistics could assist government agencies, economists, academicians as well as individuals for planning and policies formulation, economic analysis, projections and for business development planning.

Summary of finding and statistical tables are highlighted in the first two parts of this publication. Meanwhile, to facilitate better understanding, technical notes relating to the scope and coverage, concepts and definitions are provided in the final part.

The Department of Statistics Malaysia (DOSM) gratefully acknowledges all parties concerned who have contributed in making this publication a success. All comments and suggestions towards improving future publications are appreciated.

IFATS 2023

Statistik Affiliate Asing di Malaysia
Statistics on Foreign Affiliates in Malaysia

NOTA TEKNIKAL | TECHNICAL NOTES

NOTA TEKNIKAL

A. OBJEKTIF

- i. Untuk menyediakan sebahagian statistik daripada Perdagangan Perkhidmatan Antarabangsa bagi komponen *mode of supply* yang ketiga (*Mod 3*) iaitu perkhidmatan yang dibekalkan melalui kehadiran komersial yang dicerminkan oleh *FATS*.
- ii. Untuk mengukur prestasi aktiviti perniagaan yang dijalankan oleh *affiliate* asing di Malaysia.
- iii. Untuk menyediakan maklumat jenis aktiviti ekonomi dan negara pelabur *affiliate* asing di Malaysia.
- iv. Untuk lebih memahami sumbangan pelabur asing terhadap perkembangan ekonomi Malaysia.
- v. Untuk digunakan dalam analisis ekonomi dan penggubalan polisi oleh agensi pusat dalam era globalisasi dan liberalisasi.

B. KONSEP

Konsep yang digunakan dalam laporan ini adalah selaras dengan garis panduan pada MSITS 2010 oleh UNSD.

1. Statistik Affiliate Asing di Malaysia (*Inward FATS*)

Inward FATS merujuk kepada statistik ekonomi berkaitan *affiliate* asing yang beroperasi di Malaysia pada tahun kewangan tertentu. Pembolehubah yang diukur dalam laporan ini meliputi bilangan *affiliate*, nilai ditambah, pembentukan modal tetap kasar (PMTK), bilangan pekerja, pampasan pekerja, eksport dan import.

2. Affiliate Asing

Affiliate asing merujuk kepada syarikat di Malaysia yang dikawal oleh negara pelabur asing muktamad (pegangan ekuiti adalah melebihi 50 peratus). Ia berkemungkinan adalah sebuah cawangan, subsidiari atau syarikat usahasama.

3. Pelabur Immediate dan Unit Institusi Kawalan Muktamad (UCI)

Affiliate asing yang beroperasi di Malaysia boleh dimiliki sama ada oleh pelabur asing *immediate* atau/dan UCI. Pelabur asing *immediate* adalah syarikat induk terhampir kepada *affiliate* tersebut sementara UCI adalah syarikat induk teratas dalam struktur kumpulan syarikat. UCI tidak dimiliki secara majoriti oleh sebarang syarikat lain. Sebuah syarikat dianggap sebagai UCI kepada sesebuah *affiliate* jika pemilikan ekuiti di dalam setiap syarikat di bawahnya hingga kepada peringkat *affiliate* tersebut adalah konsisten dan melebihi 50 peratus. Contoh berikut menunjukkan hubungan antara UCI dan *affiliate* dalam kes-kes tertentu.

Kes I

Syarikat A adalah induk asing dan UCI bagi syarikat B.

Kes II

Syarikat D adalah induk asing syarikat E. Oleh kerana syarikat D dimiliki secara majoriti oleh syarikat C, syarikat C adalah UCI bagi syarikat E, negaranya akan dikira sebagai negara pemilikan bagi syarikat E di dalam FATS.

Kes III

Sepertimana penjelasan pada Kes II, syarikat G adalah induk asing bagi syarikat H, manakala syarikat F adalah UCI. Syarikat F adalah UCI bagi Syarikat H dan dianggap mengawal Syarikat H walaupun ianya secara tidak langsung memiliki pemilikan di dalam Syarikat H hanya 42 peratus - hasil daripada 70 peratus pegangan dalam syarikat G dan 60 peratus pegangan oleh syarikat G dalam syarikat H. Walau bagaimanapun, ianya boleh dianggap mengawal syarikat H kerana setiap entiti dalam rantaian pemilikan majoriti boleh mengawal entiti di bawahnya, termasuk tindakan entiti kepada entiti yang bawahnya.

Kes IV

Syarikat J ialah induk asing Syarikat K. Syarikat I bukan UCI bagi syarikat K kerana ia bukan pemilik majoriti syarikat J. Pada peringkat ini, ianya tidak mungkin untuk menentukan siapa UCI bagi syarikat K kerana tidak dinyatakan siapa yang memiliki baki 60 peratus dalam syarikat J. Syarikat J tidak termasuk dalam data utama FATS bagi ekonomi syarikat I kerana syarikat I tidak mengawal syarikat J.

Kes V

Syarikat M adalah induk asing syarikat N. Oleh kerana syarikat M adalah, sebaliknya, dimiliki secara majoriti oleh syarikat L, syarikat L pastinya UCI bagi syarikat M, tetapi ia tidak boleh menyatakan bahawa syarikat L juga UCI bagi syarikat N, kerana tidak mengetahui siapa yang memiliki baki 60 peratus dalam syarikat N. Walau bagaimanapun, syarikat N tidak diliputi oleh FATS kerana ia tidak dikawal oleh induk asing.

Kes VI

Syarikat O ialah induk asing dan berkemungkinan UCI bagi syarikat P jika tiada pelabur asing lain memiliki 50% syarikat P, dalam kes ini kriteria lain untuk mengenal pasti UCI perlu diambil kira. Biasanya, syarikat P tidak diliputi oleh FATS kerana ia tidak dimiliki secara majoriti oleh induk asing tetapi ia tetap merupakan satu kes yang boleh dianggap relevan bagi tujuan GATS atau analisis globalisasi. Oleh itu, negara penyusun mungkin ingin menunjukkan data untuk syarikat P (dan kes-kes lain yang berkepentingan) atas dasar tambahan.

C. SKOP DAN LIPUTAN

Skop statistik *inward* FATS adalah merujuk kepada semua *affiliate* asing di Malaysia yang beroperasi dalam aktiviti ekonomi pada tahun kewangan tertentu seperti berikut:

- i. Pertanian
- ii. Perlombongan & pengkuarian
- iii. Pembuatan
- iv. Pembinaan
- v. Perkhidmatan

1. Klasifikasi Sektor

Pengkelasan sektor ekonomi adalah berdasarkan aktiviti utama *affiliate* asing di Malaysia. Sektor tersebut dikelaskan mengikut Piawaian Klasifikasi Industri Malaysia 2008 Ver 1.0.

2. Negara Pelabur Asing *Immediate* / UCI

Negara pelabur asing *immediate*/UCI merujuk kepada pusat aktiviti ekonomi dijalankan. Negara-negara pelabur asing *immediate*/UCI yang melabur di Malaysia diklasifikasikan mengikut rantau seperti berikut:

Rantau	Negara	
Asia	Bahrain	Philippines
	Bangladesh	Qatar
	Brunei Darussalam	Republic of Korea
	Hong Kong	Saudi Arabia
	India	Singapore
	Indonesia	Taiwan
	Iran	Thailand

Oceania	Australia	New Zealand
Afrika	Mauritius	South Africa

D. DEFINISI

Definisi yang digunakan dalam laporan ini adalah selaras dengan garis panduan pada MSITS 2010. Manual tersebut menyarankan bahawa pengukuran FATS meliputi pembolehubah asas *affiliate* asing di Malaysia.

- 1. Bilangan Affiliate** Bilangan *affiliate* adalah mengikut kriteria liputan FATS (pegangan ekuiti melebihi 50 peratus).
- 2. Nilai Ditambah** Amaun di mana nilai output yang dihasilkan melebihi nilai input perantaraan yang digunakan.
- 3. Pembentukan Modal Tetap Kasar** Dikira dengan jumlah nilai perolehan pengeluar, tolak pelupusan aset tetap semasa tempoh perakaunan, ditambah penambahan tertentu kepada nilai aset bukan pengeluaran yang direalisasikan oleh aktiviti produktif.
- 4. Bilangan Pekerja** Diukur dengan bilangan pekerja berdasarkan *payroll affiliate* asing.
- 5. Pampasan Pekerja** Jumlah ganjaran dalam bentuk tunai atau barang yang dibayar oleh enterpris kepada pekerja sebagai pulangan bagi kerja yang dilakukan oleh pekerja semasa tempoh perakaunan.
- 6. Eksport dan Import** Eksport merujuk kepada transaksi barang & perkhidmatan apabila ianya dibawa keluar dari negara manakala Import pula meliputi transaksi tersebut apabila ianya dibawa masuk ke dalam negara.

E. SUMBER DATA

Sumber data untuk statistik *affiliate* asing diperoleh daripada Banci dan Survei Ekonomi yang dijalankan oleh DOSM serta data perdagangan dari Jabatan Kastam Diraja Malaysia (JKDM) dan Pihak Berkuasa Zon Bebas. Banci dan Survei tersebut mengandungi soalan berkaitan pemilikan ekuiti oleh residen atau bukan residen di Malaysia. Pertubuhan yang melapor pemilikan ekuiti oleh bukan residen melebihi 50 peratus dikelaskan sebagai *affiliate* asing.

F. AMALAN DATA AWALAN DAN SEMAKAN

Data yang diterbitkan sebelum ini berkemungkinan disemak semula selari dengan maklumat baru yang diperoleh.

G. PEMBUNDARAN

Perbezaan mungkin berlaku pada jumlah subkomponen dan jumlah besar disebabkan pembundaran angka.

TECHNICAL NOTES

A. OBJECTIVE

- i. To provide part of International Trade in Services statistics for mode of supply number three (Mode 3) that is services delivered through commercial presence, which is reflected by FATS.
- ii. To measure the performance of business activities undertaken by the foreign affiliates operating in Malaysia.
- iii. To provide information on the kind of economic activities and the countries of foreign affiliates in Malaysia.
- iv. To understand further on the contribution of foreign investor to the development of Malaysia's economy.
- v. To be used in economic analysis and policy formulation by central planning agencies in the era of globalisation and liberalization.

B. CONCEPTS

Concepts used in this publication are in accordance with the recommendations of the MSITS 2010 by UNSD.

1. Inward Foreign Affiliates Statistics (Inward FATS)

Inward FATS refers to economic statistics related to the operation of foreign affiliates in Malaysia in a certain financial year. The variables measured in this report including number of affiliates, value added, gross capital fixed formation (GFCF), number of employees, compensation of employees, exports and imports.

2. Foreign Affiliates

Foreign affiliates refer to the companies operating in Malaysia that are controlled by country of ultimate foreign investor (the holding of equity interest is more than 50 per cent). It could be branches, subsidiaries or joint ventures companies.

3. Immediate Investor and Ultimate Controlling Institutional Unit (UCI)

Foreign affiliates in Malaysia could be owned by immediate foreign investor or/and the UCI. The immediate foreign investor is the immediate parent company of affiliate while the UCI is the top parent company in the company's group structure. The UCI is not majority owned by any other company. A company considered to be the UCI to an affiliate if the equity ownership in each company under it until the said affiliate is consistently greater than 50 per cent. The following examples identify the link between UCI and affiliates in particular cases.

Case I

Company A is both the foreign parent and UCI of company B.

**Case II**

Company D is the foreign parent of company E. As because company D is, in turn, majority owned by company C, company C is the UCI of company E; its country would be considered the country of ownership of company E in FATS.

Case III

Following the same reasoning as in Case II, company G is the foreign parent of company H, while company F is its UCI. Company F is the UCI of Company H and is deemed to control Company H even though its indirectly held ownership in company H is only 42 per cent - the product of its 70 per cent share of company G and company G's 60 per cent share in company H. However, it can be presumed to control company H because each entity in a chain of majority ownerships can control the entity below it, including that entity's actions with respect to the entities that are, in turn, below it.

Case IV

Company J is the foreign parent of company K. Company I is not UCI of company K because it is not the majority owner of company J. At this stage, it is not possible to define who the UCI of company K is, as it is not specified who owns the remaining 60 per cent of company J. Also, company J is not included in the core FATS data for the economy of company I, because company I does not control company J.

Case V

Company M is the foreign parent company N. As because company M is, in turn, majority owned by company L, company L is definitely the UCI of company M, but it cannot be stated that company L is also the UCI of company N, not knowing who owns the remaining 60 per cent of company N. However, company N is not covered by FATS because it is not controlled by its foreign parent.

Case VI

Company O is the foreign parent and could be the UCI of company P if no other foreign investor also owns 50 per cent of company P, in that case other criteria to identify the UCI would have to be taken into account. Usually, company P is not covered by FATS because it is not majority owned by its foreign parent, but it nonetheless represents a case that may be deemed relevant for the purposes of GATS or globalization analysis. Thus, the compiling country may wish to show data for company P (and other cases of interest) on a supplemental basis.

C. SCOPE AND COVERAGE

The scope of inward FATS statistics refer to all foreign affiliates in Malaysia operating in the following economic activities at a certain financial year:

- i. Agriculture
- ii. Mining & quarrying
- iii. Manufacturing
- iv. Construction
- v. Services

D. DEFINITIONS

Definitions used in this publication are in accordance with the recommendations of the MSITS 2010. The manual recommends that the FATS variables to be compiled include the following basic measures of foreign affiliates activity.

1. Number of Affiliates

The number of affiliates meets the criteria for coverage by FATS (holding of equity interest is more than 50 per cent).

2. Value Added

The amount by which the value of the outputs produced exceeds the value of the intermediate inputs consumed.

3. Gross Fixed Capital Formation

Measured by the total value of a producer's acquisition, less disposal of fixed assets during the accounting period, plus certain additions to the value of non-produced assets realized by productive activity.

4. Number of Employees

Measured the number of person on the payroll of foreign affiliates.

5. Compensation of Employees

The total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period.

6. Exports and Imports

Exports refers to transactions in goods & services when they are taken out of the country, while Imports consists of that transactions when they are brought into the country.

E. DATA SOURCE

The data source for inward foreign affiliates statistics were obtained from Economics Census and Surveys conducted by DOSM as well as trade data from Royal Malaysian Customs Department (RMCD) and Free Zone Authorities. The Economic Census and Survey questionnaires contain question on equity ownership by resident or non-resident in Malaysia. Those establishments which reported on equity ownership by non-resident of more than 50 per cent are classified as foreign affiliates.

F. DATA RELEASE AND REVISION PRACTICE

Previously published data may be revised as new information is available.

G. ROUNDING

Differences may occur between the sum of subcomponents and the totals due to rounding figures.
