Pemakluman

Kepengerusian ASEAN-Malaysia 2025: Jabatan Perangkaan Malaysia (DOSM) akan mempengerusikan Jawatankuasa Sistem Statistik Komuniti ASEAN Ke-15 (ACSS15) yang bertujuan untuk memperkuuh kerjasama statistik ke arah pembangunan serantau yang mampan.

Malaysia buat julung kalinya telah menduduki tangga pertama (1) di peringkat global dalam laporan dwi-tahunan Open Data Inventory (ODIN) 2024/25 yang dikeluarkan oleh Open Data Watch (ODW), mengatasi 197 negara lain. Pencapaian ini merupakan lonjakan ketara daripada kedudukan ke-67 dalam penilaian ODIN 2022/23.

Kerajaan Malaysia telah mengisytiharkan 20 Oktober sebagai Hari Statistik Negara (MyStats Day), dengan tema 'Statistik Nadi Kehidupan.' Sementara itu, Hari Statistik Dunia Keempat akan disambut pada 20 Oktober 2025 dengan tema 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen adalah medium yang menyediakan katalog data dan visualisasi bagi memudahkan pengguna menganalisis pelbagai data dan boleh diakses melalui portal <https://open.dosm.gov.my>.

Announcement

ASEAN-Malaysia 2025 Chairmanship: The Department of Statistics Malaysia (DOSM) will chair the 15th ASEAN Community Statistical System Committee (ACSS15) which aims to strengthen the statistical cooperation towards sustainable regional development.

Malaysia, for the first time, ranked as number one (1) globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 197 other countries. This achievement marks a significant leap from its 67th position in the ODIN 2022/23 assessment.

The Government of Malaysia has declared October 20th as National Statistics Day (MyStats Day), with the theme 'Statistics is the Essence of Life.' Meanwhile, the Fourth World Statistics Day will be celebrated on 20th October 2025, with the theme 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

KATA PENGANTAR

Statistik Affiliate Malaysia di Luar Negeri bagi tahun 2023 menyediakan maklumat berkaitan bilangan *affiliate*, perolehan, bilangan pekerja, pampasan pekerja dan aset mengikut jenis aktiviti ekonomi dan negara.

Penyusunan statistik *affiliate* Malaysia di luar negeri ini adalah berdasarkan garis panduan yang disarankan dalam *Manual on Statistics of International Trade in Services (MSITS) 2010*, *United Nations Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6)*. Statistik ini boleh digunakan oleh agensi kerajaan, ahli ekonomi, ahli akademik serta individu bagi tujuan membuat perancangan dan penggubalan dasar, analisis ekonomi, unjuran dan membantu merancang pembangunan perniagaan.

Ringkasan penemuan dan jadual statistik terperinci dipaparkan pada bahagian pertama dan kedua penerbitan ini. Sementara itu, bagi memudahkan lagi kefahaman, nota teknikal yang merangkumi skop, liputan, konsep dan definisi dimuatkan pada bahagian ketiga.

Jabatan Perangkaan Malaysia (DOSM) merakamkan setinggi-tinggi penghargaan kepada semua pihak yang menyumbang dalam menjayakan penerbitan ini. Setiap pandangan dan cadangan ke arah penambahbaikan penerbitan ini pada masa hadapan amatlah dihargai.

PREFACE

Statistics on Malaysian Affiliates Abroad for the year 2023 provide information on the number of affiliates, turnover, number of employees, compensation of employees and assets by kind of economic activities and countries.

The compilation of Malaysian affiliates abroad statistics is based on the guidelines recommended in Manual on Statistics of International Trade in Services (MSITS) 2010 of United Nations and Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6). This statistics could assist government agencies, economists, academicians as well as individuals for planning and policy formulations, economic analysis, projections and for business development planning.

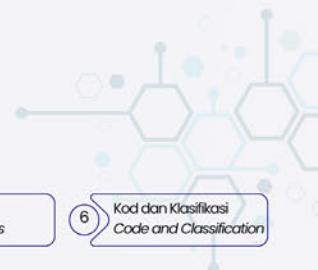

Summary of findings and statistical tables are highlighted in the first two parts of this publication. Meanwhile, to facilitate better understanding, technical notes relating to the scope and coverage, concepts and definitions are provided in the third part.

The Department of Statistics Malaysia (DOSM) gratefully acknowledges all parties concerned who have contributed in making this publication a success. All comments and suggestion towards improving future publications are appreciated.

DATO' SRI DR. MOHD UZIR MAHIDIN

Chief Statistician Malaysia

PRESTASI AFFILIATE MALAYSIA DI LUAR NEGERI

Pengenalan

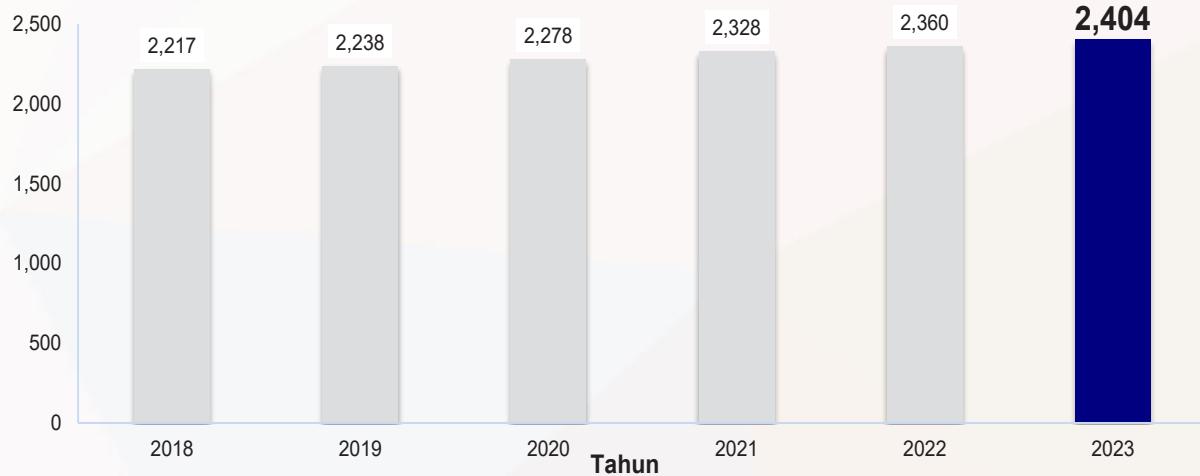

Statistik Affiliate Malaysia di Luar Negeri memperincikan prestasi aktiviti *affiliate* yang dikawal oleh syarikat Malaysia dengan pegangan ekuiti melebihi 50 peratus. Data ini memberikan gambaran tentang kesan ekonomi daripada pelaburan Malaysia di luar negeri. Selain itu, pengukuran kewujudan komersial *affiliate* dalam pasaran antarabangsa adalah berdasarkan statistik Perdagangan Perkhidmatan Antarabangsa, khususnya melalui *mode of supply* yang ketiga (*Mode 3*).

AFFILIATE MALAYSIA DI LUAR NEGERI MENGIKUT SEKTOR

Bilangan Affiliate

Pada tahun 2023, Malaysia merekodkan sebanyak 2,404 *affiliate* luar negeri, iaitu peningkatan sebanyak 1.9 peratus berbanding 2,360 *affiliate* pada 2022 (**Carta 1**). Sektor Perkhidmatan mendominasi dengan 1,821 *affiliate* (75.8%), diikuti sektor Pembuatan dengan 308 *affiliate* (12.8%). Sementara itu, sektor Perlombongan dan Pengkuarian mencatatkan bilangan *affiliate* terendah iaitu sebanyak 79 *affiliate* (3.3%) seperti ditunjukkan dalam **Paparan 1**.

Carta 1: Bilangan Affiliate di Luar Negeri, 2018 – 2023

Paparan 1: Sumbangan mengikut Sektor

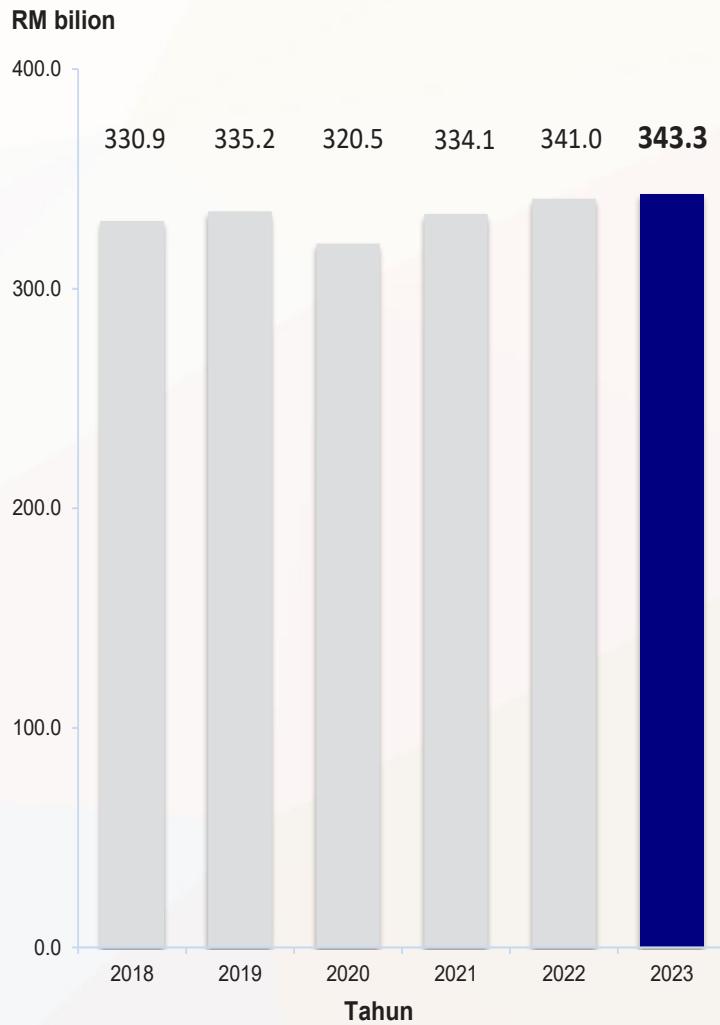

Perolehan

Affiliate Malaysia di luar negeri menjana jumlah perolehan sebanyak RM343.3 bilion, mencatatkan peningkatan 0.7 peratus pada tahun 2023, berbanding RM341.0 bilion pada tahun 2022 (Carta 2). Sektor Perkhidmatan merupakan penyumbang utama dengan 66.9 peratus (RM229.6 bilion), diikuti oleh sektor Pembuatan dengan 18.0 peratus (RM61.9 bilion). Sebaliknya sektor Pembinaan mencatatkan perolehan yang paling kecil berjumlah 1.7 peratus (RM5.9 bilion) seperti ditunjukkan dalam **Paparan 2**.

Paparan 2: Sumbangan mengikut Sektor

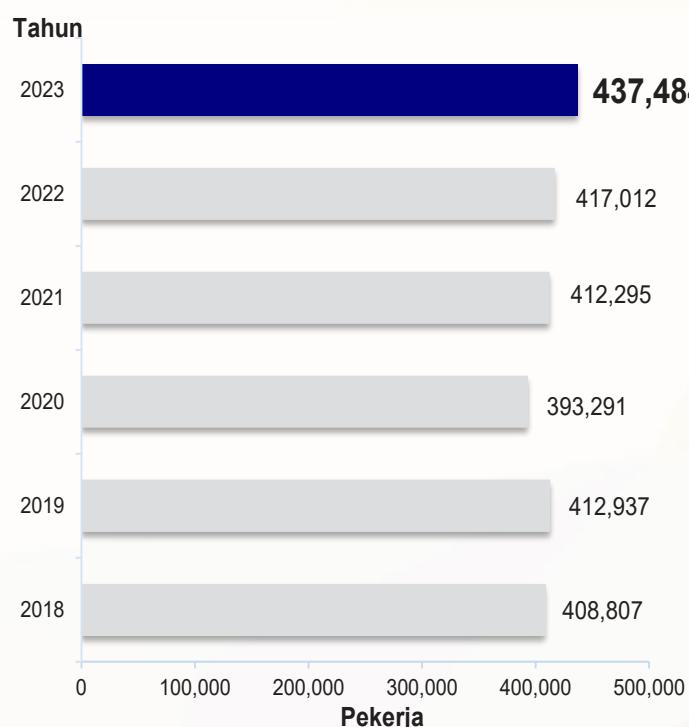

Carta 2: Perolehan Affiliate di Luar Negeri, 2018 - 2023

Bilangan Pekerja

Affiliate Malaysia di luar negeri menggaji seramai 437,484 pekerja pada 2023 iaitu peningkatan sebanyak 4.9 peratus berbanding 2022 (417,012 pekerja), seperti yang ditunjukkan dalam **Carta 3**. Sektor Pertanian merekodkan jumlah pekerja paling ramai iaitu 160,195 orang, diikuti Perkhidmatan (159,903 pekerja), dan Pembuatan (99,392 pekerja). Sementara itu, sektor Perlombongan dan pengkuarian mempunyai jumlah paling kecil iaitu 6,318 pekerja (**Paparan 3**).

Perolehan

Affiliate Malaysia di Asia menjana perolehan tertinggi sebanyak RM198.8 bilion iaitu 57.9 peratus daripada jumlah keseluruhan. Ini diikuti oleh Eropah dengan 13.7 peratus (RM47.1 bilion), manakala Amerika menyumbang 9.6 peratus (RM32.9 bilion).

Singapura, Australia dan Thailand merupakan negara utama menyumbang kepada jumlah perolehan (**Paparan 7**).

Paparan 7: Perolehan Affiliate di Luar Negeri mengikut Negara Utama, 2023

Singapura RM55.8b	Australia RM54.7b	Thailand RM39.9b	Indonesia RM39.4b	Netherlands RM27.7b

Paparan 8: Affiliate di Luar Negeri mengikut Bilangan Pekerja dan Pampasan Pekerja, 2022 – 2023

Bilangan Pekerja, orang

2022	2023
329,941	345,168 (78.9%)
53,593	54,023 (12.3%)
19,237	19,371 (4.4%)
12,753	14,258 (3.3%)
1,489	4,664 (1.1%)

Pampasan Pekerja, RM bilion

RANTAU	2023	2022
ASIA	RM19.7b (77.3%)	RM16.7b
OCEANIA	RM1.4b (5.6%)	RM3.2b
EROPAH	RM2.3b (9.2%)	RM3.0b
AMERIKA	RM1.6b (6.1%)	RM1.9b
AFRIKA	RM0.5b (1.8%)	RM0.2b

Bilangan Pekerja

Affiliate Malaysia di Asia menggaji seramai 345,168 orang, menyumbang 78.9 peratus daripada jumlah pekerja. Oceania merupakan kedua tertinggi dengan 12.3 peratus (54,023 pekerja), manakala Eropah dengan 4.4 peratus (19,371 pekerja).

Indonesia, China dan Viet Nam mencatatkan bilangan pekerja tertinggi, seperti ditunjukkan dalam **Paparan 9**.

Paparan 9: Bilangan Pekerja mengikut Negara Utama, 2023

Pampasan Pekerja

Jumlah pampasan pekerja tertinggi dicatatkan oleh *affiliate* di Asia bernilai RM19.7 bilion (77.3%). Seterusnya ialah Eropah dengan 9.2 peratus dan Amerika dengan 6.1 peratus.

Di kalangan negara-negara utama, *affiliate* di Indonesia membayar pampasan pekerja tertinggi iaitu RM4.6 bilion, diikuti Thailand (RM3.9 bilion) dan Singapura (RM2.0 bilion) seperti yang ditunjukkan di **Paparan 10**.

Paparan 10: Pampasan Pekerja mengikut Negara Utama, 2023

PERFORMANCE OF MALAYSIAN AFFILIATES ABROAD

Introduction

The Malaysian Affiliates Abroad Statistics outlines the performance of affiliates managed by Malaysian firms with more than 50 per cent ownership. These figures provide key insights into the economic effects of Malaysian overseas investments. Moreover, the assessment of the affiliates' commercial presence in international markets are based on the International Trade in Services (ITS) framework, specifically under supply mode three (Mode 3).

MALAYSIAN AFFILIATES ABROAD BY SECTOR

Number of Affiliates

In 2023, Malaysia registered 2,404 overseas affiliates, an increase of 1.9 per cent compared with 2,360 affiliates in 2022 (Chart 1). The Services sector dominated with 1,821 affiliates (75.8%), followed by Manufacturing sector with 308 affiliates (12.8%). Meanwhile, Mining and quarrying recorded the lowest number of affiliates with a total of 79 affiliates (3.3%), as presented in **Exhibit 1**.

Chart 1: Number of Affiliates Abroad, 2018 – 2023

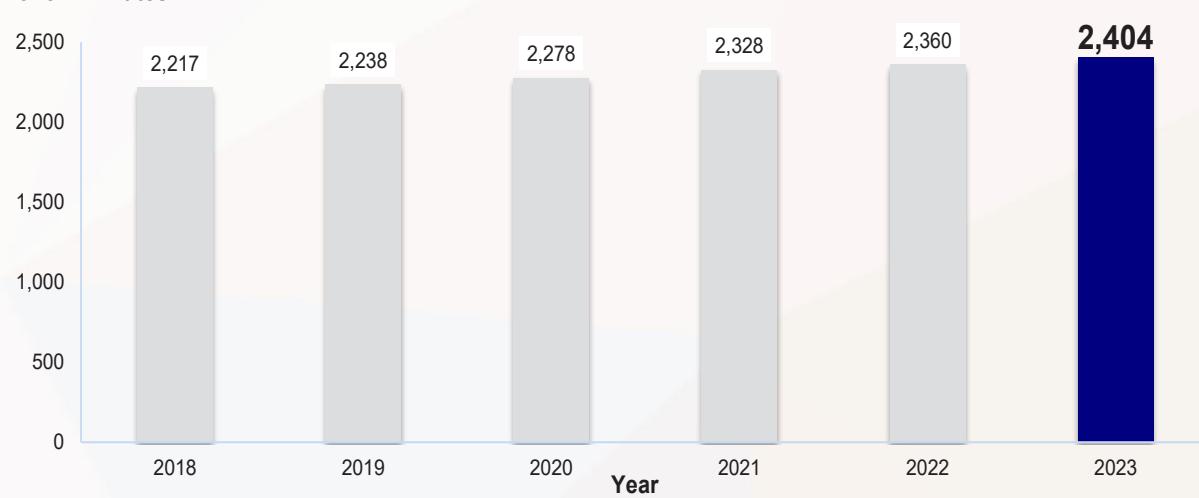

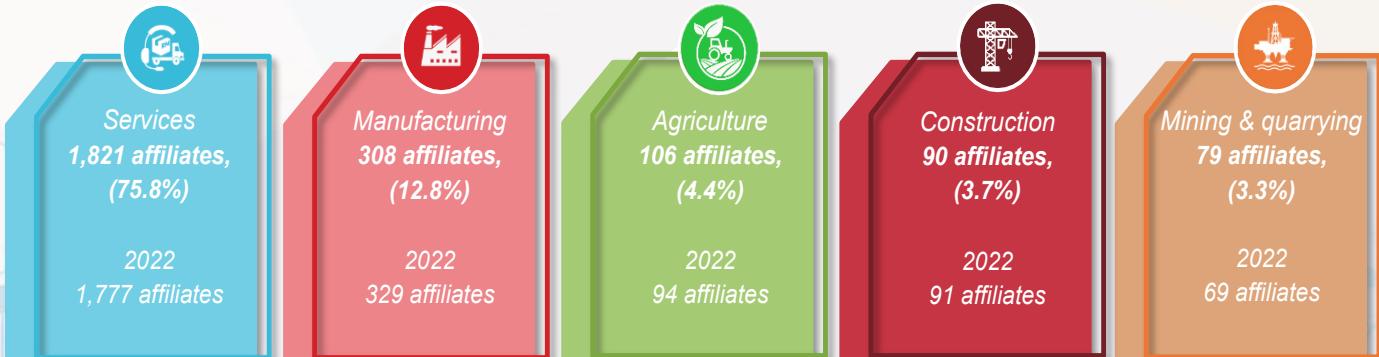

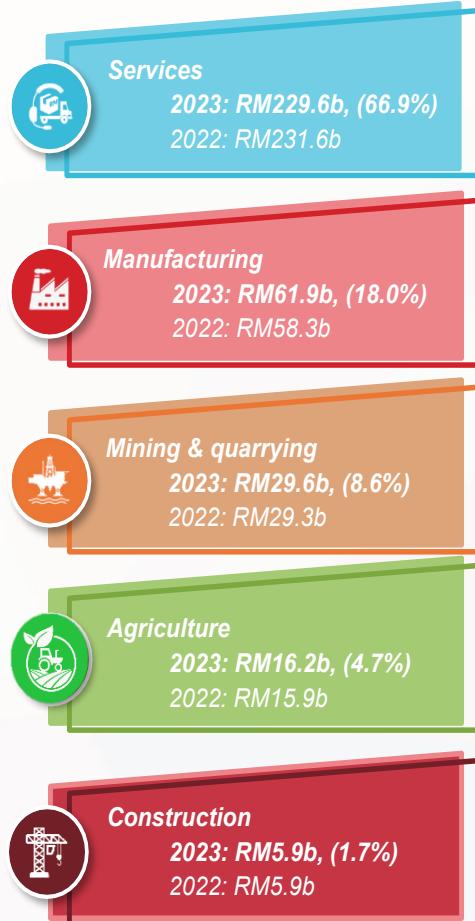

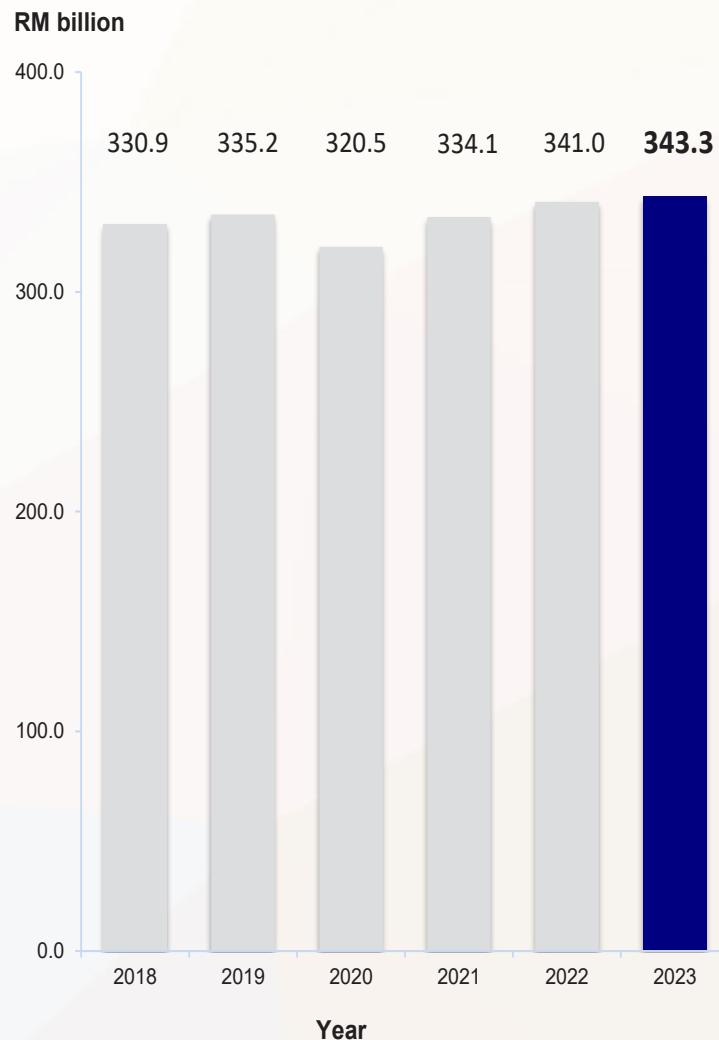

Exhibit 1: Share by Sector

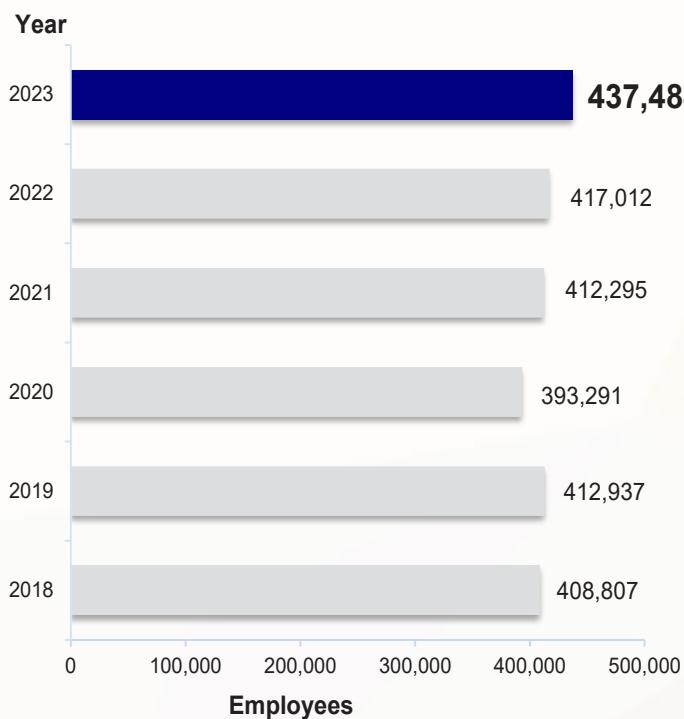

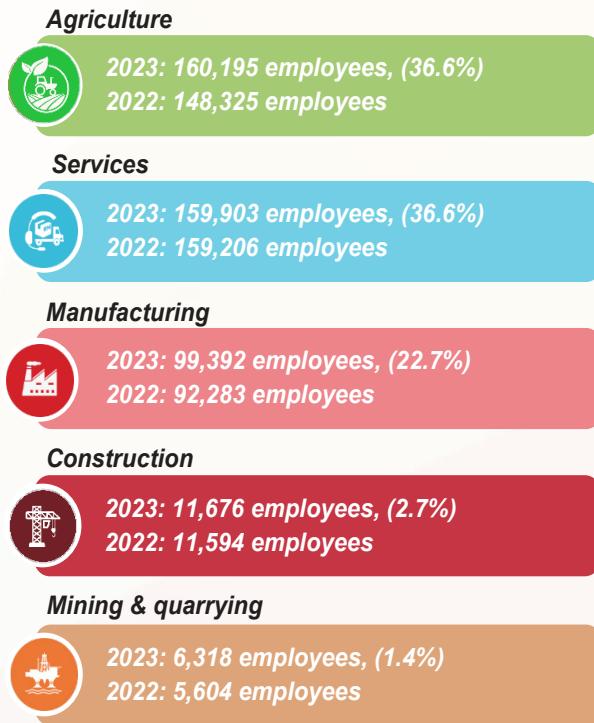

Turnover

Malaysian affiliates abroad generated a total turnover of RM343.3 billion, reflecting a 0.7 per cent in 2023, rose from RM341.0 billion in 2022 (**Chart 2**). The Services sector was the main contributor with 66.9 per cent (RM229.6 billion), followed by Manufacturing sector with 18.0 per cent (RM61.9 billion). Conversely, the Construction sector registered the smallest turnover, totaling 1.7 per cent (RM5.9 billion), as depicted in **Exhibit 2**.

Exhibit 2: Share by Sector

Chart 2: Turnover of Affiliates Abroad, 2018 – 2023

Number of Employees

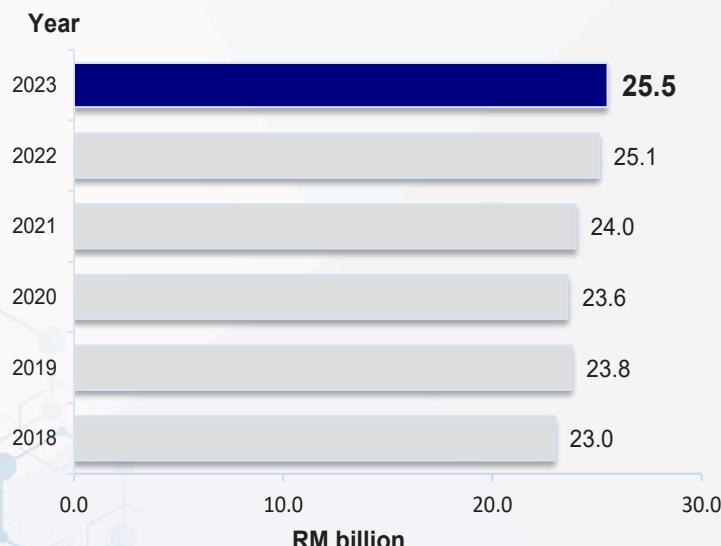

Malaysian affiliates abroad employed 437,484 employees in 2023 which rose by 4.9 per cent against 2022 (417,012 employees), as presented in **Chart 3**. The Agriculture sector employed the largest group with 160,195 employees, followed by Services (159,903 employees) and Manufacturing (99,392 employees). Meanwhile, the Mining and quarrying sector had the smallest workforce, with 6,318 employees (**Exhibit 3**).

Chart 3: Number of Employees Affiliates Abroad. 2018 – 2023**Exhibit 3: Share by Sector**

Compensation of Employees

Malaysian affiliates abroad disbursed RM25.5 billion in employee compensation in 2023, representing an increase of 1.6 per cent from RM25.1 billion in previous year (Chart 4). The Services sector made the largest contribution at RM18.2 billion (71.4%), followed by Manufacturing sector with RM3.9 billion (15.4%).

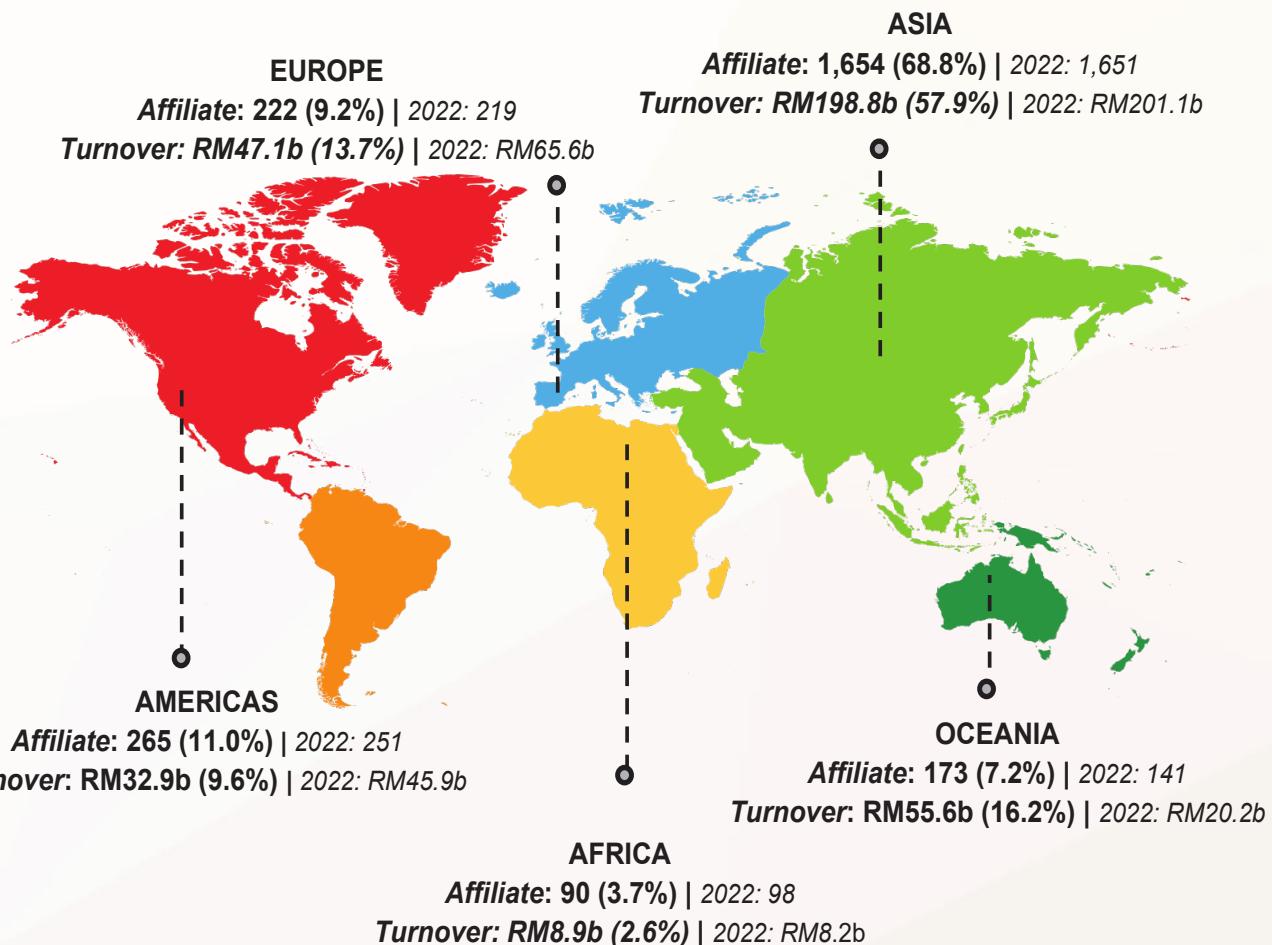

On the other hand, the Construction sector paid the lowest compensation at RM0.6 billion (2.5%), as illustrated in Exhibit 4.

Chart 4: Compensation of Employees of Affiliates Abroad, 2018 – 2023**Exhibit 4: Share by Sector**

MALAYSIA'S AFFILIATES ABROAD BY REGION

Exhibit 5: Number of Affiliates Abroad and Turnover by Region, 2022 – 2023

Number of Affiliates

Asia registered the highest number of Malaysian affiliates in 2023, making up 68.8 per cent of the total with 1,654 affiliates. The Americas ranked second with 265 affiliates (11.0%), while Europe accounted for 222 affiliates (9.2%). In terms of ranking by country, Singapore had the largest number of affiliates at 484 followed by China (257) and Indonesia (255), as shown in **Exhibit 6**.

Exhibit 6: Number of Affiliates Abroad by Major Countries, 2023

Singapore 484 affiliates	China 257 affiliates	Indonesia 255 affiliates	Hong Kong 168 affiliates	Australia 118 affiliates

Turnover

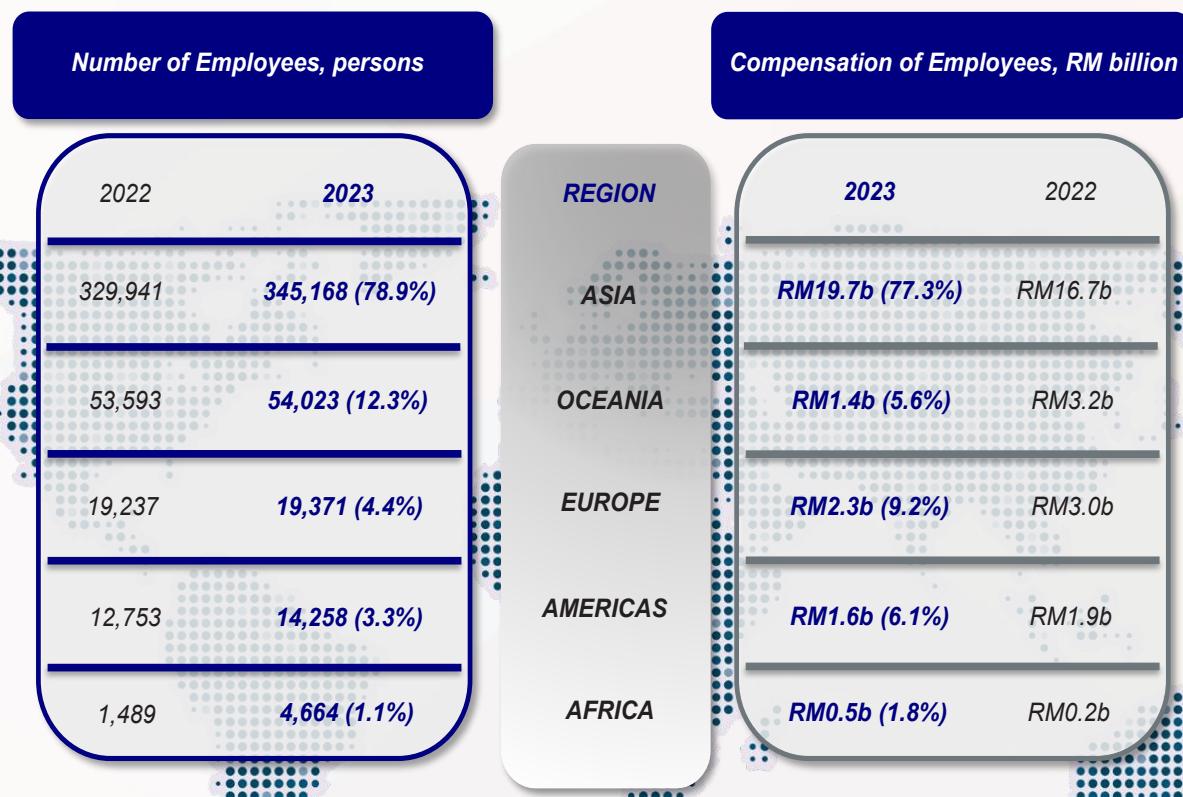

Malaysian affiliates in Asia generated the highest turnover at RM198.8 billion, representing 57.9 per cent of the total share. This was followed by Europe at 13.7 per cent (RM47.1 billion), while the Americas contributed 9.6 per cent (RM32.9 billion).

Singapore, Australia, and Thailand were the main countries contributing to total turnover (**Exhibit 7**).

Exhibit 7: Turnover of Affiliates Abroad by Major Countries, 2023

Exhibit 8: Affiliate Abroad by Numbers of Employees and Compensation of Employees, 2022 – 2023

Number of Employees

Malaysian affiliates in Asia hired 345,168 persons, contributing 78.9 per cent of total employment. Oceania ranked second with 12.3 per cent (54,023 employees), while Europe accounted for 4.4 per cent (19,371 employees).

Indonesia, China, and Viet Nam recorded the highest number of employees, as displayed in **Exhibit 9**.

Exhibit 9: Number of Employees by Major Countries, 2023

Compensation of Employees

The highest amount of compensation of employees was recorded by affiliates in Asia accounting for RM19.7 billion (77.3%). This was followed by Europe 9.2 per cent and the Americas at 6.1 per cent.

Among the major countries, affiliates in Indonesia paid the highest compensation of employees at RM4.6 billion, trailed by Thailand (RM3.9 billion) and Singapore (RM2.0 billion), as shown in **Exhibit 10**.

Affiliate Malaysia di Luar Negeri: Kajian mengenai Perspektif Outward FATS

'Amirah Nur Ahmad; A'in Aqilah Kamarulzaman; Azni Sharlina Zakaria
 Bahagian Perangkaan Imbangan Pembayaran, Jabatan Perangkaan Malaysia

1.0 PENGENALAN

Globalisasi telah membuka ruang kepada syarikat untuk memulakan pengoperasian dan mengembangkan aktiviti perniagaan melepas sempadan geografi negara. Syarikat Malaysia tidak terkecuali daripada merebut peluang ini di luar negara. Bermula tahun 1980-an, pembukaan syarikat milik negara di luar Malaysia telah diterokai secara berperingkat dengan sokongan kerajaan melalui dasar ekonomi yang bersesuaian dengan situasi ekonomi semasa. Pada ketika itu, Malaysia menguatkan hubungan dasar luarnya melalui kerjasama ekonomi dengan ASEAN, Negara-negara Sedang Membangun (NAM) dan Kerjasama Selatan-selatan. Antara usaha Malaysia dengan negara-negara ini adalah meneroka pasaran baru di negara-negara tersebut yang masih belum diterokai sepenuhnya serta mencipta peluang kepada agensi swasta Malaysia untuk membuat pelaburan di negara sasaran¹.

Salah satu syarikat milikan negara yang terkenal dalam penerokaan pasaran di luar negara adalah Petroliam Nasional Berhad (PETRONAS) yang mempunyai portfolio perniagaan di lebih 100 negara di dunia (*Petronas Integrated Report*, 2023). Antara negara yang terlibat adalah Oman, Indonesia, Sudan, Brazil dan Afrika Selatan. Penerokaan pasaran oleh PETRONAS melibatkan sektor perlombongan dan sektor perkhidmatan. Selain PETRONAS, Sime Darby Berhad juga merupakan antara syarikat konglomerat yang melebarkan perniagaan dan operasi di 17 buah negara terutamanya di rantau Asia Pasifik (Laporan Tahunan Sime Darby, 2023). Sime Darby menjadi jenama pilihan dunia dalam sektor pertanian, perindustrian dan perkhidmatan terutamanya dalam bidang permotoran.

Penerokaan pasaran dan pencapaian oleh anak syarikat PETRONAS, Sime Darby dan lain-lain anak syarikat Malaysia di luar negara perlu diukur dari segi prestasi ekonomi. Bagi mengukur prestasi ekonomi dan impak pelaburan Malaysia, Statistik Pelaburan Langsung Malaysia di Luar Negeri (*Malaysia's Direct Investment Abroad – DIA*) dan Statistik Affiliate Malaysia di Luar Negeri (*Outward Foreign Affiliates Statistics – Outward FATS*) digunakan untuk lebih memahami pelaburan Malaysia dan perkembangan ekonomi affiliate Malaysia di luar negeri.

DIA merujuk kepada pelaburan dalam bentuk instrumen kewangan iaitu ekuiti dan dana pelaburan saham (termasuk perolehan yang dilabur semula) dan instrumen hutang (pinjaman antara syarikat, kredit perdagangan, kemudahan kredit, dan lain-lain) yang dilakukan oleh pelabur langsung Malaysia dalam enterpis pelaburan langsung di luar negeri. Pelabur langsung terdiri daripada entiti Malaysia, sama ada individu atau syarikat yang mempunyai kawalan terhadap syarikat tersebut, iaitu memiliki lebih daripada 50 peratus kuasa pengundian atau mempunyai kuasa mempengaruhi, antara 10 hingga 50 peratus kuasa pengundian dalam syarikat di luar negeri. Definisi dan skop *Outward FATS* pula akan dibincangkan dengan lebih mendalam dalam topik seterusnya.

Objektif kertas kajian ini adalah untuk meningkatkan pengetahuan dan kefahaman berkaitan konsep dan penyusunan Statistik *Outward FATS* serta mengkaji trend data Statistik *Outward FATS* mengikut rantau terutamanya Rantau Asia dan Negara

¹ Hubungan Ekonomi Antarabangsa Periode Tunku Abdul Rahman dan Dr Mahathir Mohamad: Suatu Kajian Komparatif.

ASEAN. Pendekatan perbincangan artikel ini adalah berdasarkan kaedah analisis kandungan dan kajian daripada pembacaan berkaitan manual dan artikel yang relevan dengan statistik ini serta pemerhatian terhadap data *Outward FATS* bermula tahun 2019 hingga 2023.

2.0 PERBINCANGAN

2.1 Konsep, Penyusunan dan Kepentingan Statistik *Outward FATS*

Berbanding anak syarikat Malaysia di luar negara yang lebih luas definisinya dalam perbincangan sebelum ini, perbincangan berkaitan Statistik *Outward FATS* adalah lebih khusus dan memberi fokus kepada prestasi aktiviti *affiliate* yang dikawal oleh syarikat Malaysia. *Affiliate* didefinisikan sebagai syarikat yang beroperasi di luar negara, yang dikawal oleh syarikat induk muktamad di Malaysia. *Affiliate* terdiri daripada sebuah cawangan, subsidiari atau syarikat usaha sama. Pegangan ekuiti oleh syarikat adalah melebihi 50 peratus.

Affiliate yang beroperasi di luar Malaysia boleh dimiliki sama ada oleh pelabur asing *immediate* atau/dan unit institusi kawalan muktamad (UCI). Pelabur asing *immediate* merupakan syarikat induk terhampir kepada *affiliate* tersebut, manakala UCI adalah syarikat induk teratas dalam struktur kumpulan syarikat. UCI tidak dimiliki secara majoriti oleh syarikat yang lain dan dianggap UCI kepada sesebuah *affiliate* apabila pemilikan ekuiti di dalam setiap syarikat di bawahnya adalah konsisten dan melebihi 50 peratus. UCI kepada sesebuah *affiliate* harus beroperasi di Malaysia.

Konsep dan penyusunan statistik *affiliate* Malaysia di luar negeri adalah berdasarkan garis panduan yang disarankan dalam *Manual on Statistics of International Trade in Services (MSITS) 2010*, *United Nations* dan *Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6)* yang diterbitkan *International Monetary Fund (IMF)*.

Statistik *Outward FATS* mengukur kewujudan komersial *affiliate* dalam pasaran asing berdasarkan statistik Perkhidmatan Perdagangan Antarabangsa. Kewujudan komersial *affiliate* dalam pasaran asing merujuk kepada aktiviti perniagaan yang dijalankan oleh *affiliate* di negara asing. Berdasarkan BPM6, komersial *affiliate* dalam pasaran asing merujuk kepada *mode of supply* yang ketiga (*Mode 3*).

Statistik ekonomi ini juga membantu agensi kerajaan, penyelidik dan ahli perniagaan untuk lebih memahami impak fenomena globalisasi dunia dalam perdagangan antarabangsa melalui data yang diterbitkan. Data *Outward FATS* merentasi negara juga digunakan sebagai asas untuk menilai kebergantungan ekonomi sesuatu negara terhadap ekonomi negara asing dan pengaruh *affiliate* terhadap negara tuan rumah. Contohnya, mereka dapat menilai perolehan yang dijana oleh *affiliate* Malaysia di Indonesia dan Singapura, mengenal pasti jumlah pekerja dan pampasan pekerja yang diperoleh oleh *affiliate* Malaysia di benua Amerika dan Oceania serta menganalisis aset yang dimiliki oleh *affiliate* Malaysia di Eropah.

2.2 Analisis Statistik Outward FATS Malaysia

Bagi Statistik Outward FATS yang diterbitkan oleh Jabatan Perangkaan Malaysia (DOSM), terdapat lima pembolehubah yang disediakan dalam penerbitan iaitu perolehan, pekerja, pampasan pekerja dan aset, selain bilangan *affiliate*. Setiap pembolehubah ini dianalisis mengikut lima sektor ekonomi iaitu pertanian, perlombongan & pengkuarian, pembuatan, pembinaan dan perkhidmatan.

Bagi kertas ini, perbincangan akan memberi tumpuan kepada bilangan *affiliate* dan perolehan mengikut rantau dan negara ASEAN bagi tempoh lima tahun bermula 2019 hingga 2023.

a) Statistik Outward FATS: Affiliate

Jadual 1: Bilangan Affiliate mengikut Rantau, 2019-2023

Tahun	Rantau					
	Asia	Amerika	Eropah	Oceania	Afrika	Jumlah
2019	1,547	251	201	140	98	2,237
2020	1,567	263	207	170	71	2,278
2021	1,606	263	215	171	73	2,328
2022	1,651	251	219	141	98	2,360
2023	1,654	265	222	173	90	2,404

Sumber: Jabatan Perangkaan Malaysia

Secara keseluruhannya, bilangan *affiliate* Malaysia di luar negeri menunjukkan peningkatan dari tahun 2019 hingga 2023. Semua rantau turut menunjukkan pertambahan *affiliate* pada tahun 2023 iaitu rantau Asia (1,654), Amerika (265), Eropah (222), Oceania (173) dan Afrika (90) berbanding tahun 2019 seperti dipaparkan di Jadual 1.

Affiliate Malaysia di Asia mewakili lebih daripada dua pertiga daripada jumlah keseluruhan *affiliate* Malaysia di luar negara. Perkara ini telah menunjukkan dominasi *affiliate* Malaysia di Asia bagi tempoh lima tahun berturut-turut. Pada tahun 2023, *affiliate* Malaysia di Asia merekodkan 1,654 *affiliate*, meningkat sebanyak 6.9 peratus berbanding 1,547 *affiliate* pada tahun 2019.

Walau bagaimanapun, bermula tahun 2022, berlaku penurunan bagi bilangan *affiliate* Malaysia di rantau Amerika dan Oceania, iaitu daripada 263 *affiliate* (2021) kepada 251 *affiliate* (2022) bagi rantau Amerika, dan daripada 171 *affiliate* (2021) kepada 141 *affiliate* (2022) bagi rantau Oceania. Namun begitu, bilangan *affiliate* Malaysia bagi kedua-dua rantau ini meningkat semula pada tahun 2023 iaitu 265 (*Amerika*) dan 173 (*Oceania*).

Pada tahun 2023, terdapat penurunan bagi bilangan *affiliate* Malaysia di rantau Afrika, iaitu daripada 98 *affiliate* (2022) kepada 90 *affiliate* (2023).

Carta 1: Bilangan Affiliate mengikut Rantau Asia dan Negara ASEAN, 2019-2023

Sumber: Jabatan Perangkaan Malaysia

Carta 1 menunjukkan bilangan affiliate Malaysia di Asia yang sentiasa menunjukkan pertambahan dalam tempoh lima tahun ini, bermula pada tahun 2019 hingga 2023. Berbanding pada tahun 2019, bilangan *affiliate* Malaysia di Negara ASEAN meningkat sebanyak 2.6 peratus, iaitu daripada 975 *affiliate* kepada 1,000 *affiliate* pada tahun 2023. Bilangan affiliate Malaysia di Negara ASEAN mewakili 60.0 peratus daripada jumlah keseluruhan *affiliate* Malaysia di Asia. Sehubungan dengan itu, *affiliate* Malaysia di negara ASEAN telah menyumbang 41.6 peratus terhadap keseluruhan *affiliate* pada tahun 2023.

b) Statistik Outward FATS: Perolehan

Jadual 2: Perolehan Affiliate mengikut Rantau, 2019-2023

Tahun	Rantau (RM bilion)					
	Asia	Oceania	Eropah	Amerika	Afrika	Jumlah
2019	188.9	23.5	56.7	22.1	44.0	335.2
2020	164.4	39.5	54.6	26.3	35.9	320.5
2021	171.5	38.8	57.0	29.4	37.5	334.1
2022	201.1	20.2	65.6	45.9	8.2	341.0
2023	198.8	55.6	47.1	32.9	8.9	343.3

Sumber: Jabatan Perangkaan Malaysia

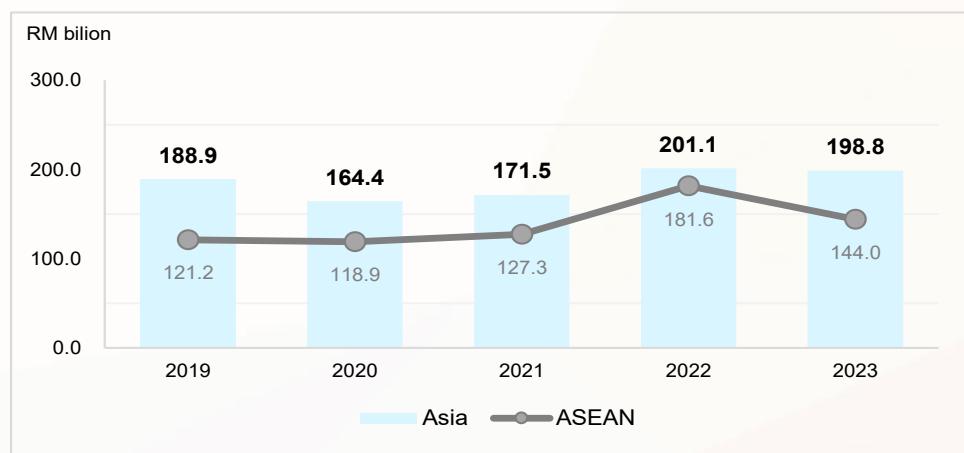

Berdasarkan Jadual 2, secara keseluruhannya, *affiliate* Malaysia di luar negeri merekodkan peningkatan perolehan yang signifikan pada tahun 2023 berbanding tahun 2019, iaitu rantau Asia (RM198.8 bilion), Oceania (RM55.6 bilion) dan Amerika (RM32.9 bilion).

Rantau Asia mencatatkan perolehan yang paling tinggi berbanding rantau lain selama lima tahun berturut daripada tahun 2019 sehingga 2023. Perkara ini menggambarkan Asia sebagai penyumbang utama bagi perolehan *affiliate* Malaysia sepanjang tempoh tersebut.

Bermula tahun 2022, berlaku penurunan yang ketara bagi perolehan *affiliate* Malaysia di rantau Oceania dan Afrika, iaitu RM38.8 bilion (2021) kepada RM20.2 bilion (2022) bagi rantau Oceania dan daripada RM37.5 bilion (2021) kepada RM8.2 bilion (2022) bagi rantau Afrika. Namun begitu, perolehan *affiliate* Malaysia di Oceania dan Afrika meningkat semula pada tahun 2023 iaitu RM55.6 bilion (Oceania) dan RM8.9 bilion (Afrika).

Bagi tahun 2023, berlaku penurunan dalam perolehan *affiliate* Malaysia bagi rantau Asia, Eropah dan Amerika, iaitu daripada RM201.1 bilion (2022) kepada RM198.8 bilion (2023) bagi rantau Asia, RM65.6 bilion (2022) kepada RM47.1 bilion (2023) bagi rantau Eropah dan daripada RM45.9 bilion (2022) kepada RM32.9 bilion (2023) bagi rantau Amerika.

Carta 2: Perolehan *Affiliate* mengikut Rantau Asia dan Negara ASEAN, 2019-2023

Sumber: Jabatan Perangkaan Malaysia

Carta 2 menunjukkan perolehan *affiliate* Malaysia di Asia dan negara-negara ASEAN dalam tempoh lima tahun ini, bermula 2019 hingga 2023. Berbanding pada tahun 2019, perolehan *affiliate* Malaysia di negara ASEAN telah bertambah sebanyak 18.8 peratus iaitu daripada RM121.2 bilion kepada RM144.0 bilion pada tahun 2023. Perolehan *affiliate* Malaysia di negara ASEAN mewakili 72.4 peratus daripada jumlah keseluruhan perolehan *affiliate* Malaysia di Asia. Sehubungan dengan itu, perolehan *affiliate* Malaysia di negara ASEAN telah menyumbang sebanyak 41.9 peratus terhadap jumlah keseluruhan perolehan *affiliate* pada tahun 2023.

3.0 PENUTUP

Sebagai kesimpulan, prestasi *affiliate* Malaysia di luar negeri terutamanya di Asia konsisten merekodkan peningkatan secara keseluruhan dari segi bilangan *affiliate*. Hal ini menunjukkan pencapaian yang baik kerana *affiliate* Malaysia tidak bergantung sepenuhnya kepada ekonomi domestik Malaysia, sebaliknya melangkah ke pasaran dunia yang lebih luas dan global. Walaupun terdapat bilangan *affiliate* yang berkurang di sesetengah rantau dan ASEAN, penutupan *affiliate* ini adalah perlu kerana ia tertakluk kepada kos perbelanjaan pengoperasian, keperluan pasaran dan situasi ekonomi di negara tersebut.

Malaysian Affiliates Abroad: A Study through Outward FATS Perspective

‘Amirah Nur Ahmad; A'in Aqilah Kamarulzaman; Azni Sharlina Zakaria
Balance of Payments Statistics Division, Department of Statistics Malaysia

1.0 INTRODUCTION

Globalisation has significantly broadened the scope for corporations to expand their operations and business activities beyond national borders. Malaysian enterprises are no exception in capitalising on these opportunities. Since the 1980s, the establishment of government-linked companies abroad has been progressively pursued, supported by government policies that were responsive to prevailing economic conditions. During this period, Malaysia also strengthened its foreign policy through economic cooperation with ASEAN, the Non-Aligned Movement (NAM), and South-South Cooperation. These initiatives included exploring untapped markets in partner countries while simultaneously creating investment opportunities for Malaysian private agencies in targeted economies¹.

Among the most notable government-linked corporations to venture abroad is Petroliam Nasional Berhad (PETRONAS), which currently maintains a business portfolio in over 100 countries worldwide (Petronas Integrated Report, 2023). Its overseas ventures span across nations such as Oman, Indonesia, Sudan, Brazil and South Africa, encompassing both the extractive industries and service-related sectors. In parallel, Sime Darby Berhad has also emerged as a leading conglomerate with operations in 17 countries, particularly within the Asia-Pacific region (Sime Darby Annual Report, 2023). Sime Darby has established itself as a global brand of choice in agriculture, industry and services, with a particular emphasis on the automotive sector.

The expansion and achievements of PETRONAS, Sime Darby and other Malaysian subsidiaries abroad must be assessed in terms of economic performance. To measure the economic impact of Malaysia’s investments, Malaysia’s Direct Investment Abroad (DIA) statistics and Outward Foreign Affiliates Statistics (Outward FATS) are used to provide deeper insights into Malaysia’s overseas investments and the economic development of its foreign affiliates.

DIA refers to the investment in the form of financial instruments such as equity and investment fund shares (including reinvestment of earnings) and debt instruments (inter-company loans, trade credits, advances, and others) by Malaysian direct investors in direct investment enterprises. Direct investors are defined as entities in which Malaysian investors, whether individual or company, are able to exercise control or significant influence either through ownership of more than 50 per cent of voting rights or by holding between 10 and 50 per cent of voting power in the foreign enterprise. The conceptual framework and scope of Outward FATS will be examined in greater depth in the subsequent section.

The objective of this paper is to enhance knowledge and understanding of the concept and compilation of Outward FATS statistics and to examine trends in Outward FATS data by region, especially Asia and ASEAN countries. The approach for discussion in this article is based on content analysis, manuals and relevant articles as well as observations of Outward FATS data from 2019 to 2023.

¹ International Economic Relations During the Tenure of Tunku Abdul Rahman and Dr Mahathir Mohamad Mohamad: A Comparative Study

2.0 DISCUSSION

2.1 Concept, Compilation and Significance of Outward FATS Statistics

Compared to Malaysian subsidiaries abroad, which were discussed earlier in a broader sense, the discussion on Outward FATS statistics is more specific and focuses on the performance of affiliates controlled by Malaysian companies. The affiliates refer to the companies operating abroad that are controlled by an ultimate parent companies in Malaysia. The affiliates could be branches, subsidiaries, or joint venture companies. The holding of equity interest is more than 50 per cent.

The affiliates operating outside Malaysia could be owned either by immediate foreign investor and/or by the ultimate controlling institutional unit (UCI). The immediate foreign investor is the immediate parent company of the affiliate, while the UCI is the top parent company in the company's group structure. The UCI is not majority owned by any other company and is considered to be the UCI to an affiliate is consistently greater than 50 per cent. The UCI of an affiliate abroad must operate in Malaysia.

The concept and compilation of statistics on Malaysian affiliates abroad are based on the guidelines provided in the Manual on Statistics of International Trade in Services (MSITS) 2010 by the United Nations and the Balance of Payments and International Investment Position Manual, Sixth Edition (BPM6) published by the International Monetary Fund (IMF).

Outward FATS statistics measure the commercial presence of the affiliates at foreign markets within the framework of international trade in services statistics. The commercial presence of affiliates abroad refers to the business activities conducted by these affiliates in foreign countries. According to BPM6, the commercial affiliates in foreign markets correspond to the mode of supply three (Mode 3).

These economic statistics could assist government agencies, researchers and businessmen in deepening their understanding of the impact of globalisation on international trade, based on the data published. Outward FATS data across countries are also used to assess how much a country's economy depends on foreign economies and the influence of affiliates on host countries. For example, such statistics can reveal the turnover generated by Malaysian affiliates in Indonesia and Singapore, identify the number of employees and employee compensation provided by Malaysian affiliates in the Americas and Oceania and analyse the assets held by Malaysian affiliates in Europe.

2.2 Outward FATS Statistical Analysis in Malaysia

There are five variables provided, which are turnover, employment, compensation of employees, and assets, in addition to the number of affiliates, in the Outward FATS statistics published by the Department of Statistics Malaysia (DOSM). Each of these variables is analysed according to five economic sectors: agriculture, mining & quarrying, manufacturing, construction and services.

In this paper, the discussion will focus on the number of affiliates and turnover by region and ASEAN countries for the five years from 2019 to 2023.

a) Outward FATS Statistics: Affiliates

Table 1: Number of Affiliates by Region, 2019-2023

Year	Region					Total
	Asia	Americas	Europe	Oceania	Africa	
2019	1,547	251	201	140	98	2,237
2020	1,567	263	207	170	71	2,278
2021	1,606	263	215	171	73	2,328
2022	1,651	251	219	141	98	2,360
2023	1,654	265	222	173	90	2,404

Source: Department of Statistics Malaysia

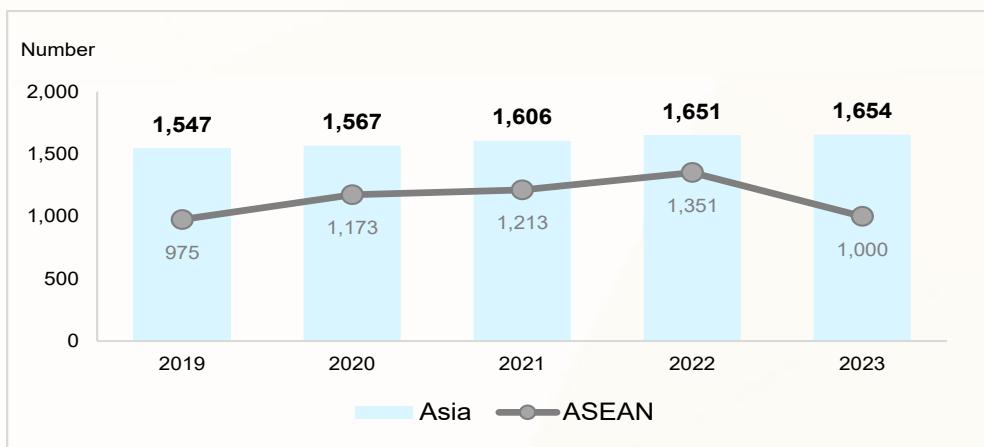

Overall, Malaysian affiliates abroad showed an increase between 2019 and 2023. All region recorded growth in affiliates in 2023, namely Asia (1,654), the Americas (265), Europe (222), Oceania (173) and Africa (90), compared to 2019, as shown in Table 1.

Malaysian affiliates in Asia represented more than two-thirds of the total number of Malaysian affiliates abroad. This indicates the dominance of Malaysian affiliates in Asia over five consecutive years. In 2023, Malaysian affiliates in Asia recorded 1,654 affiliates, an increase of 6.9 per cent compared to 1,547 affiliates in 2019.

However, beginning in 2022, there was a decline in the number of Malaysian affiliates in the Americas and Oceania, from 263 affiliates (2021) to 251 affiliates (2022) in the Americas and from 171 affiliates (2021) to 141 affiliates (2022) in Oceania. Nevertheless, the number of Malaysian affiliates in both regions rose again in 2023 to 265 affiliates (Americas) and 173 affiliates (Oceania).

In 2023, the number of Malaysian affiliates in the Africa region declined from 98 affiliates (2022) to 90 affiliates (2023).

Chart 1: Number of Affiliates by Asia Region and ASEAN Countries, 2019-2023

Source: Department of Statistics Malaysia

Chart 1 shows that Malaysian affiliates in Asia consistently increased over the five-year period from 2019 to 2023. Compared to 2019, the Malaysian affiliates in ASEAN countries rose by 2.6 per cent, from 975 affiliates to 1,000 affiliates in 2023. Malaysian affiliates in ASEAN countries represented 60.0 per cent of the total Malaysian affiliates in Asia. Accordingly, Malaysian affiliates in ASEAN countries contributed 41.6 per cent to the overall affiliates in 2023.

b) Outward FATS Statistics: Turnover

Table 2: Turnover of Affiliates by Region, 2019-2023

Year	Region (RM billion)					
	Asia	Oceania	Europe	Americas	Africa	Total
2019	188.9	23.5	56.7	22.1	44.0	335.2
2020	164.4	39.5	54.6	26.3	35.9	320.5
2021	171.5	38.8	57.0	29.4	37.5	334.1
2022	201.1	20.2	65.6	45.9	8.2	341.0
2023	198.8	55.6	47.1	32.9	8.9	343.3

Source: Department of Statistics Malaysia

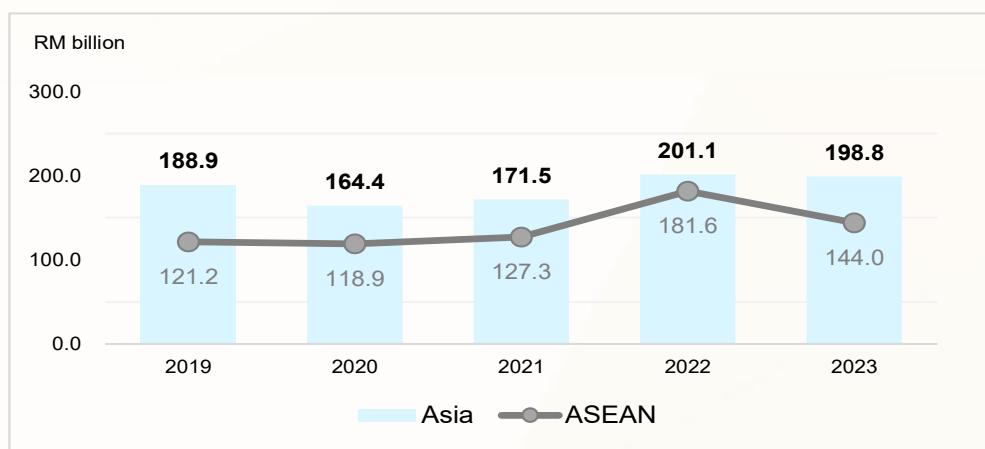

Based on Table 2, Malaysian affiliates abroad recorded a significant increase in overall turnover for 2023 as compared to 2019, namely Asia (RM198.8 billion), Oceania (RM55.6 billion) and the Americas (RM32.9 billion).

The Asian region recorded the highest turnover compared to other regions for five consecutive years from 2019 to 2023. This highlights Asia as the main contributor to the turnover of Malaysian affiliates throughout the period.

Starting in 2022, there was a sharp decline in the turnover of Malaysian affiliates in Oceania and Africa, from RM38.8 billion (2021) to RM20.2 billion (2022) in Oceania, and from RM37.5 billion (2021) to RM8.2 billion (2022) in Africa. Nevertheless, the turnover of Malaysian affiliates in Africa rebounded in 2023, amounting to RM8.9 billion.

In 2023, there was a decline in the turnover of Malaysian affiliates in Asia, Europe and the Americas, from RM201.1 billion (2022) to RM198.8 billion in Asia, from RM65.6 billion (2022) to RM47.1 billion (2023) in Europe, from RM45.9 billion (2022) to RM32.9 billion (2023) in the Americas.

Chart 2: Turnover of Affiliates by Asia Region and ASEAN Countries, 2019-2023

Source: Department of Statistics Malaysia

Chart 2 shows that the turnover generated by Malaysian affiliates in Asia over the five-year period from 2019 to 2023. Compared to 2019, the Malaysian affiliates' turnover in ASEAN countries grew by 18.8 per cent, from RM121.2 billion to RM144.0 billion in 2023. The turnover attributed to Malaysian affiliates in ASEAN countries represented 72.4 per cent of the total turnover of Malaysian affiliates in Asia. Accordingly, the Malaysian affiliates' turnover in ASEAN countries contributed 41.9 per cent to the overall turnover in 2023.

3.0 CONCLUSION

In conclusion, the performance of Malaysian affiliates abroad, particularly in Asia, has consistently recorded overall growth in number of affiliates. This reflects a positive achievement, as Malaysian affiliates are not solely dependent on Malaysia's domestic economy but are expanding into wider and more global markets. Although the number of affiliates has declined in certain regions and ASEAN countries, such closures are necessary as they are subject to operating costs, market demands and the economic situation in the respective countries.

OFATS 2023

Statistik Affiliate Malaysia di Luar Negeri

Statistics on Malaysian Affiliates Abroad

NOTA TEKNIKAL | TECHNICAL NOTES

NOTA TEKNIKAL

A. OBJEKTIF

- i. Untuk menyedia sebahagian statistik Perdagangan Perkhidmatan Antarabangsa bagi komponen *Mode of Supply* yang Ketiga (*Mode 3*) iaitu perkhidmatan yang dibekalkan melalui kehadiran komersial, yang dicerminkan oleh FATS.
- ii. Untuk mengukur prestasi aktiviti perniagaan yang dijalankan oleh *affiliate* Malaysia di luar negeri
- iii. Untuk menyedia maklumat jenis aktiviti ekonomi dan negara operasi *affiliate* di luar negeri.
- iv. Untuk lebih memahami perkembangan ekonomi dunia dan industri yang baru muncul di negara lain.
- v. Untuk digunakan dalam analisis ekonomi dan penggubalan polisi oleh agensi pusat dalam era globalisasi dan liberalisasi.

B. KONSEP

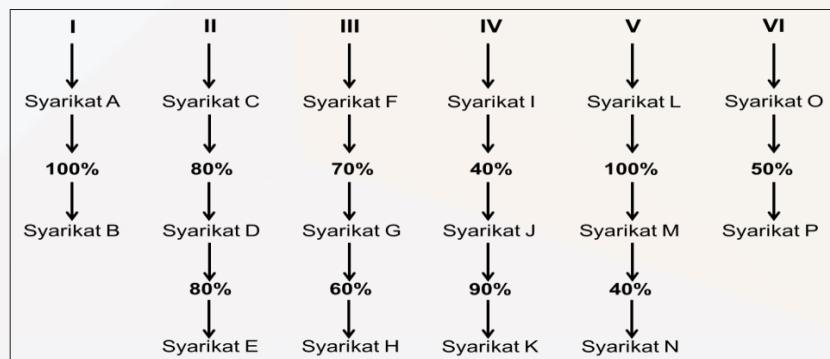

1. **Statistik Affiliate di Luar Negeri (Outward FATS)**
2. **Affiliate di Luar Negeri**
3. **Pelabur immediate dan Unit Institusi Kawalan Muktamad (UCI)**

Konsep yang digunakan dalam laporan ini adalah selaras dengan garis panduan pada MSITS 2010, UNSD.

Outward FATS merujuk kepada statistik ekonomi berkaitan operasi *affiliate* Malaysia di luar negeri. Pembolehubah yang diukur dalam laporan ini meliputi bilangan *affiliate*, perolehan, bilangan pekerja, pampasan pekerja dan aset.

Affiliate di Luar Negeri merujuk kepada syarikat yang beroperasi di luar Malaysia, yang dikawal oleh syarikat induk muktamad di Malaysia (pegangan ekuiti adalah melebihi 50 peratus). Ia boleh terdiri daripada sebuah cawangan, subsidiari atau syarikat usaha sama.

Affiliate yang beroperasi di luar negeri boleh dimiliki sama ada oleh pelabur asing *immediate* atau/dan UCI. Pelabur asing *immediate* adalah syarikat induk terhampir kepada *affiliate* tersebut sementara UCI adalah syarikat induk teratas dalam struktur kumpulan syarikat. UCI adalah tidak dimiliki secara majoriti oleh sebarang syarikat lain. Sebuah syarikat dianggap sebagai UCI kepada sesebuah *affiliate* jika pemilikan ekuiti di dalam setiap syarikat di bawahnya hingga kepada peringkat *affiliate* tersebut adalah konsisten dan melebihi 50 peratus. Bagi tujuan penyusunan *outward FATS* Malaysia, UCI kepada sesebuah *affiliate* harus beroperasi di Malaysia. Contoh berikut menunjukkan hubungan antara UCI dan *affiliate* dalam kes-kes tertentu.

Kes I

Syarikat A adalah induk asing dan UCI bagi syarikat B.

Kes II

Syarikat D adalah induk asing syarikat E. Oleh kerana syarikat D dimiliki secara majoriti oleh syarikat C, syarikat C adalah UCI bagi syarikat E; negaranya akan dikira sebagai negara pemilikan bagi syarikat E di dalam FATS.

Kes III

Berikut penjelasan yang sama seperti dalam Kes II, syarikat G adalah induk asing bagi syarikat H, manakala syarikat F adalah UCI. Syarikat F adalah UCI bagi Syarikat H dan dianggap mengawal Syarikat H walaupun ianya secara tidak langsung memiliki pemilikan di dalam Syarikat H hanya 42 peratus - hasil daripada 70 peratus pegangan dalam syarikat G dan 60 peratus pegangan oleh syarikat G dalam syarikat H. Walau bagaimanapun, ianya boleh dianggap mengawal syarikat H kerana setiap entiti dalam rantaian pemilikan majoriti boleh mengawal entiti di bawahnya, termasuk tindakan entiti kepada entiti yang bawahnya.

Kes IV

Syarikat J ialah induk asing Syarikat K. Syarikat I bukan UCI bagi syarikat K kerana ia bukan pemilik majoriti syarikat J. Pada peringkat ini, ianya tidak mungkin untuk menentukan siapa UCI bagi syarikat K, kerana tidak dinyatakan siapa yang memiliki baki 60 peratus dalam syarikat J. Syarikat J tidak termasuk dalam data utama FATS bagi ekonomi syarikat I, kerana syarikat I tidak mengawal syarikat J.

Kes V

Syarikat M adalah induk asing syarikat N. Kerana syarikat M adalah, sebaliknya, dimiliki secara majoriti oleh syarikat L, syarikat L pastinya UCI bagi syarikat M, tetapi ia tidak boleh menyatakan bahawa syarikat L juga UCI bagi syarikat N, kerana tidak mengetahui siapa yang memiliki baki 60 peratus dalam syarikat N. Walau bagaimanapun, syarikat N tidak diliputi oleh FATS kerana ia tidak dikawal oleh induk asing.

Kes VI

Syarikat O ialah induk asing dan berkemungkinan UCI bagi syarikat P jika tiada pelabur asing lain memiliki 50% syarikat P, dalam kes ini kriteria lain untuk mengenal pasti UCI perlu diambil kira. Biasanya, syarikat P tidak diliputi oleh FATS kerana ia tidak dimiliki secara majoriti oleh induk asing, tetapi ia tetap merupakan satu kes yang boleh dianggap relevan bagi tujuan GATS atau analisis globalisasi. Oleh itu, negara penyusun mungkin ingin menunjukkan data untuk syarikat P (dan kes-kes lain yang berkepentingan) atas dasar tambahan.

C. SKOP DAN LIPUTAN

1. Klasifikasi Sektor

Skop statistik *outward* FATS merujuk kepada semua *affiliate* Malaysia yang beroperasi di luar negeri dalam semua sektor ekonomi.

2. Negara *Affiliate* di Luar Negeri

Pengkelasian sektor ekonomi adalah berdasarkan aktiviti utama *affiliate* di luar negeri. Sektor tersebut dikelaskan mengikut Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Ver. 1.0. Pengklasifikasian bagi sektor Pembuatan dan Perkhidmatan dalam Jadual 1 adalah seperti di **Lampiran**.

Merujuk kepada negara di mana pusat utama aktiviti ekonomi dijalankan oleh *affiliate*.

D. DEFINISI

1. Perolehan

Definisi yang digunakan dalam laporan ini adalah selaras dengan garis panduan pada MSITS 2010. Manual tersebut menyarankan bahawa pengukuran FATS meliputi pembolehubah asas *affiliate* di luar negeri seperti berikut:

Amaun barang dan perkhidmatan yang dijual dalam sesuatu tempoh oleh sesebuah *affiliate*. Bagi sektor pembinaan, ia merujuk kepada nilai kerja pembinaan.

2. Bilangan Pekerja

Bilangan pekerja *affiliate* di luar negeri yang menerima gaji, termasuk pekerja secara kontrak.

3. Pampasan Pekerja

Jumlah ganjaran dalam bentuk tunai atau barang yang dibayar oleh enterpis kepada pekerja sebagai pulangan bagi kerja yang dilakukan oleh pekerja semasa tempoh perakaunan.

4. Aset

Merujuk kepada nilai terkumpul yang mewakili faedah kepada pemilik yang memegang atau menggunakan entiti tersebut dalam sesuatu tempoh masa. Ini meliputi kedua-dua aset kewangan dan bukan kewangan, sama ada pengeluaran atau bukan pengeluaran.

E. SUMBER DATA

Sumber data untuk statistik *affiliate* outward adalah daripada Survei *Affiliate* Asing di Luar Negeri yang dijalankan oleh DOSM. Survei ini mengumpul data dari syarikat induk/ syarikat induk muktamad di Malaysia yang melapor statistik ekonomi bagi pihak *affiliate* yang beroperasi di luar negeri. Dalam proses pengumpulan data, penyiasatan ini meliputi *affiliate* di luar negeri yang kepentingan ekuitinya dipegang lebih 50 peratus pada setiap syarikat yang berada di atasnya dalam struktur sesebuah kumpulan syarikat sehingga ke peringkat syarikat induk muktamad. Pembolehubah yang dikumpul melalui penyiasatan ini meliputi jenis aktiviti ekonomi, negara, perolehan, bilangan pekerja, pampasan pekerja dan aset.

F. PEMBUNDARAN

Perbezaan mungkin berlaku pada jumlah sub komponen dan jumlah besar disebabkan pembundaran angka.

TECHNICAL NOTES

A. OBJECTIVE

- i. To provide part of International Trade in Services statistics for Mode of Supply Number Three that is services delivered through commercial presence, which is reflected by FATS.
- ii. To measure the performance of business activities undertaken by Malaysia's affiliates operating abroad.
- iii. To provide information on the kind of economic activities and the countries of operation of affiliates abroad.
- iv. To further understand on the development of world economic and new emerging industries in other countries.
- v. To be used in economic analysis and policy formulation by central planning agencies in the era of globalisation and liberalisation.

B. CONCEPTS

1. Outward Foreign Affiliates Statistics (FATS)

Concepts used in this publication are in accordance with the recommendations of the MSITS 2010 by UNSD.

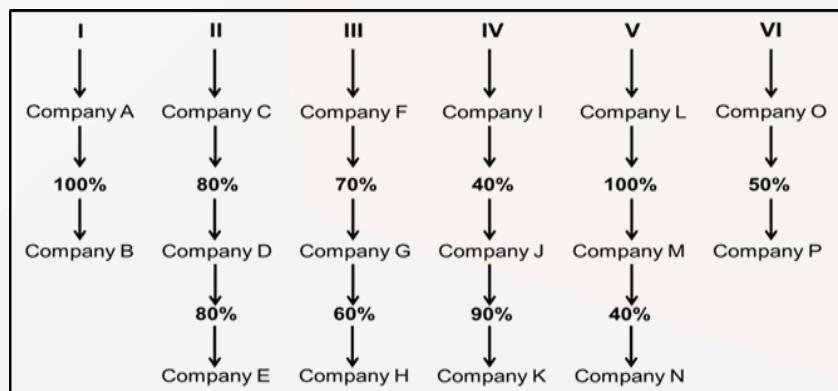

Outward FATS refers to economic statistics relating to the operation of Malaysia's affiliates abroad. The variables measured in this report include the number of affiliates, turnover, employment, compensation of employees and assets.

2. Affiliates Abroad

Affiliates Abroad refers to the companies operating outside Malaysia that are controlled by Malaysia's ultimate parent companies (the holding of equity interest is more than 50 per cent). It could be branches, subsidiaries or joint venture companies.

3. Immediate Investor and Ultimate Controlling Institutional Unit (UCI)

The affiliates operating abroad could be owned by immediate foreign investor or/and the UCI. The immediate foreign investor is the immediate parent company of affiliate while the UCI is the top parent company in the company's group structure. The UCI is not majority owned by any other company. A company is considered to be the UCI of an affiliate if the equity ownership in each company under it until the said affiliate is consistently greater than 50 per cent. For the purpose of Malaysia's outward FATS compilation, the UCI to an affiliate abroad must operate in Malaysia. The following examples identify the link between UCI and affiliates in particular cases.

Case I

Company A is both the foreign parent and UCI of company B.

Case II

Company D is the foreign parent of company E. Because company D is, in turn, majority owned by company C, company C is the UCI of company E; its country would be considered the country of ownership of company E in FATS.

Case III

Following the same reasoning as in Case II, company G is the foreign parent of company H, while company F is its UCI. Company F is the UCI of Company H and is deemed to control Company H even though its indirectly held ownership of company H is only 42 per cent - the product of its 70 per cent share of company G and company G's 60 per cent share in company H. However, it can be presumed to control company H because each entity in a chain of majority ownerships can control the entity below it, including that entity's actions with respect to the entities that are, in turn, below it.

Case IV

Company J is the foreign parent of company K. Company I is not the UCI of company K because it is not the majority owner of company J. At this stage, it is not possible to define who the UCI of company K is, as it is not specified who owns the remaining 60% of company J. Also, company J is not included in the core FATS data for the economy of company I, because company I does not control company J.

Case V

Company M is the foreign parent of company N. Because company M is, in turn, majority owned by company L, company L is definitely the UCI of company M, but it cannot be stated that company L is also the UCI of company N, because it is not known who owns the remaining 60% of company N. However, company N is not covered by FATS because it is not controlled by its foreign parent.

Case VI

Company O is the foreign parent and could be the UCI of company P if no other foreign investor also owns 50% of company P, in that case other criteria to identify the UCI would have to be taken into account. Usually, company P is not covered by FATS because it is not majority owned by its foreign parent, but it nonetheless represents a case that may be deemed relevant for the purposes of GATS or globalisation analysis. Thus, the compiling country may wish to show data for company P (and other cases of interest) on a supplemental basis.

C. SCOPE AND COVERAGE

1. Sector Classification

The scope and coverage of outward FATS statistics refer to all Malaysian affiliates operating abroad in all economic sectors.

2. Country of Affiliate Abroad

The classifications of economic sectors are based on the principal activities of affiliates abroad. The sectors are classified according to Malaysia Standard Industrial Classification (MSIC) 2008 Ver. 1.0. Classification for Manufacturing and Services sectors in Table 1 are as per **Appendix**.

Refers to the country where predominant centre of economic activities is undertaken.

D. DEFINITIONS

1. Turnover

Definitions used in this publication are in accordance with the recommendations of the MSITS 2010. The manual recommends that the measurement of FATS include the following basic variables of affiliates abroad.

2. Employment

The amount of goods or services sold in a given time period by an affiliate. For construction, it refers to the value of construction work done.

Number of workers on the payrolls of affiliates abroad, including contract workers.

3. Compensation of Employees

The total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period.

4. Assets

Refers to accumulative value representing the benefits accruing to the economic owner by holding or using the entity over a period of time. These include both financial assets and nonfinancial assets, whether produced or non-produced.

E. DATA SOURCE

The data source for outward FATS is from the Survey of Outward Foreign Affiliates conducted by DOSM. This survey collects data from parent/ultimate parent companies in Malaysia on economic statistics of their affiliates operating abroad. In the data collection process, this survey canvasses affiliates abroad which the equity interest is held more than 50 per cent by each upper linked company in the group until the ultimate parent company level. The variables collected through this survey consist of affiliates' economic activities, countries, turnover, number of employees, compensation of employees and assets.

F. ROUNDING

Differences may occur between the sum of sub components and the totals due to rounding figures.
