The availability of indicators in 2021 showed a significant increase to 71 per cent (175 indicators) as compared to 59 per cent (146 indicators) in the previous year. SDG achievement in Malaysia has been affected by the COVID-19 pandemic and the implementation of Movement Control Order (MCO). The COVID-19 pandemic has impacted society and the country in terms of health, economy and social.

In the matter of **health aspect**, indicator under Goal 3: Good Health and Well-being showed the death rate due to road accidents for each 100,000 population decreased from 14.3 (2020) to 13.9 (2021). Among the reasons that contributed to the decrease in road accidents was cross-border travel restrictions implemented during the MCO.

From **economy aspect**, indicator under Goal 8: Decent Work and Economic Growth showed the annual growth rate of real GDP per capita in Malaysia grew by 2.7 per cent in 2021 as compared to contraction of 5.3 per cent in the previous year due to the gradual opening of the economic sector in 2021. GDP is expected to expand as it posted a growth of 9.3 per cent (3Q 2021: 2.9%) for the first three quarters of 2022.

In the matter of **safety aspect**, indicator under Goal 16: Peace, Justice and Strong Institutions, number of murder crimes reported by Royal Malaysia Police decreased 1.3 per cent to 4,063 cases in 2021 as compared to the previous year. Besides, stricter enforcement activities by the authorities and community awareness are the factors which contributed to the decrease in this crime.

In terms of **internet usage**, indicator under Goal 17: Partnership for the Goals, percentage of individuals using the Internet in Malaysia increased from 89.6 per cent (2020) to 96.8 per cent in 2021. The Home-Based Teaching and Learning (PdPR) and work from home policy (WFH) were factors contributing to this increase.

Meanwhile, with regard to **environment aspect**, indicator under Goal 12: Responsible Consumption and Production recorded the quantity of clinical waste handled for destruction in the incinerator showed an increase from 39.9 thousand metric tons (2020) to 57.4 thousand metric tons (2021).

For **transportation sector**, indicator under Goal 9: Industry, Innovation and Infrastructure recorded the number of passengers handled at the airport decreased from 26.8 million (2020) to 11.0 million (2021).
