

BUSINESS TENDENCY STATISTICS FOURTH QUARTER 2015

Business Tendency Statistics presents data on the business performance based on the Business Tendency Survey which is conducted quarterly. The main objective of this survey is to measure the current business performance in Malaysia as well as expectation for the upcoming three and six months.

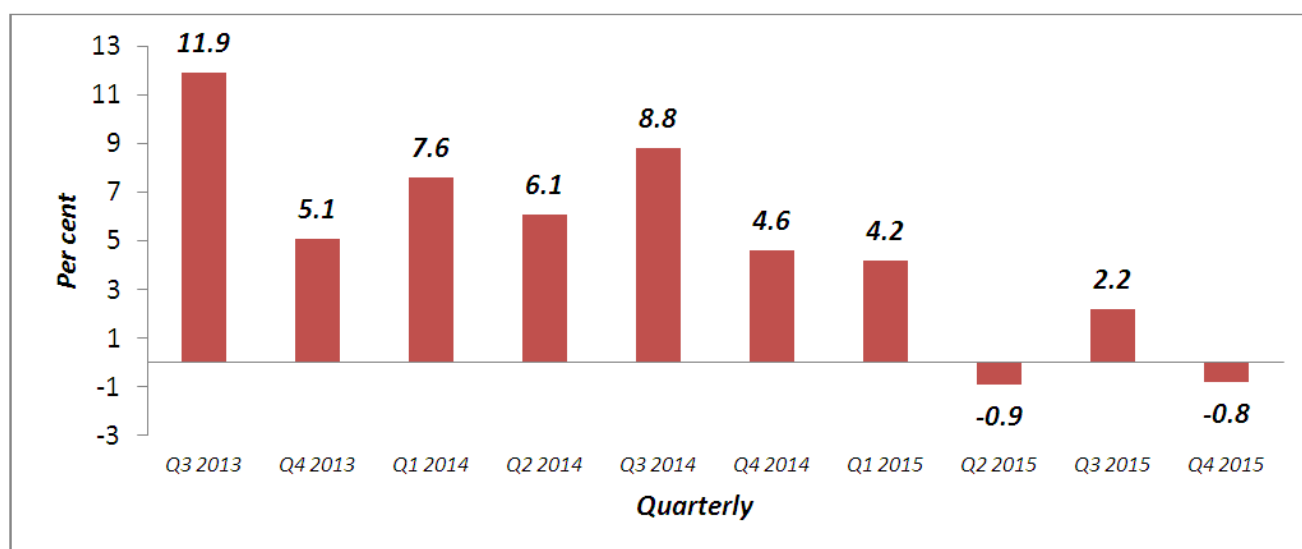

This report publishes the statistics of current business situation for the third quarter of 2015, business expectation for the fourth quarter of 2015 and the upcoming six months period of October 2015 to March 2016.

FORECAST OF BUSINESS PERFORMANCE FOR THE FOURTH QUARTER 2015

Business performance in the fourth quarter 2015 is expected to slow down, as shown by the confidence indicator -0.8 per cent as compared to +2.2 per cent in the third quarter of 2015.

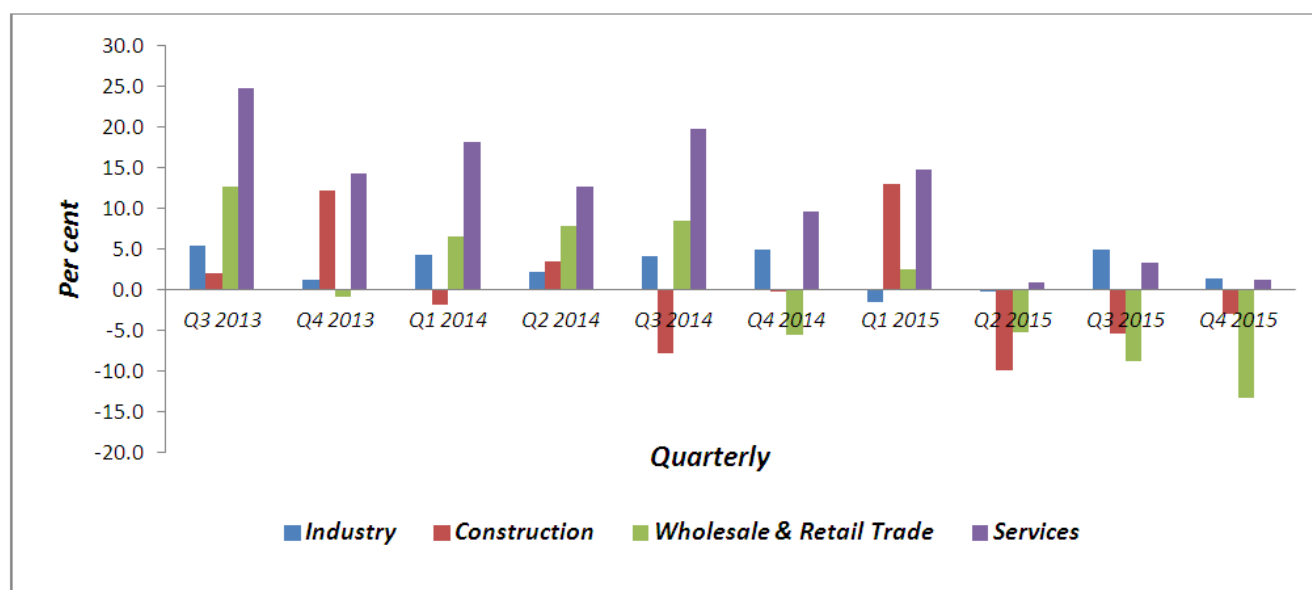

Confidence indicator is an indicator that summaries the overall views on short-term business situation in various sectors in Malaysia. The confidence indicator is computed as the average of the net balance for selected variables.

Chart I: Confidence Indicator, 2013-2015
